

House Rejects Roosevelt Plan For Permanent CCC, 385 to 7

Sends Bill to Senate Pro-
viding 2-Year
Extension

BACKS AMENDMENTS Knocks Out Provision to Put Foremen Under Civil Service

Washington—(AP)—The house firmly and finally rejected today President Roosevelt's recommendation for a permanent civilian conservation corps. It passed and sent to the senate instead a bill to extend the CCC for two years only.

The bill passed on a roll call vote, 385 to 7.

Administration leaders made no attempt to reverse the ballot by which an insurgent membership voted overwhelmingly yesterday to retain the agency on a temporary basis.

Today's action was a mere formality ratifying the decision reached in yesterday's tumultuous session.

Limit of \$15,000

In a special message to congress, President Roosevelt had asked that the CCC be made permanent. After writing in the two-year limitation, the house accepted his suggestion that the strength of the corps be fixed at 300,000 youths and veterans, 10,000 Indians and 5,000 individuals from territories and possessions.

Before passing the bill, the house approved again, by a vote of 32 to 148, an amendment knocking out a provision to put technical and technical foremen under civil service.

It ratified, also, an amendment making discretionary a requirement that the corps provide 10 hours' general educational and vocational training a week for enrollees.

Some representatives told the house the bill would reduce the number of CCC camps from 2,000 to around 1,450.

Instead of requiring that enrollees come only from families on relief, the measure provides that youths 17 to 23 years old who are unemployed and in needy circumstances may enlist.

Budget Bill Is Ready for Phil

Senate Concurs in Two
Amendments Offered
In Assembly

Madison—(AP)—Legislative action on Governor LaFollette's \$55,000,000 budget bill was completed today when the senate concurred in two assembly amendments.

The bill was returned to the assembly for enrollment after which it will be ready for the governor's signature.

Amendments approved by the senate require the state to pay the full statutory aid of \$7 a week for each patient in the tuberculosis sanatorium and increase the allotment to the emergency board from \$975,000 to \$1,000,000 a year.

There was no dissent on the first amendment, but Senator Roland Kannerberg (P), Wausau, moved rejection of the proposal to increase emergency funds. His motion was defeated and the amendment adopted, 16 to 13.

A balancing feature recommended by Governor LaFollette was retained in the final draft of biennial allotments. The first section provides for disbursement of \$46,000,000, the amount of estimated normal revenues, and the second section—dependent upon \$11,000,000 of new taxes each year—allows \$55,000,000.

Injury Proves Fatal to South Milwaukee Founder

South Milwaukee—(AP)—C. C. Rogers, 90, a founder of South Milwaukee, died last night of effects of a hip fracture he suffered in a fall Sunday.

Rogers, because of his death one of the oldest living graduates of Eastman college, Poughkeepsie, N. Y., had been a member of the Milwaukee, Chicago and Minneapolis stock exchanges for 28 years. He organized the village of South Milwaukee in 1890 in company with his brother Fred W. Rogers and John S. George.

A Strenuous Job

A lazy man decided to take up crime detection as his life work. The first job he was applied for was watching for shoplifters in a piano store. Choosing one's life work is no easy matter and those who pick soft snags often wake up in hard hours. There is an easy way, however, to pick up or sell a piano—it's through a Want Ad like this one in the Post-Crescent:

FLAYER PIANO—With bench and rolls. Sacrifice for \$25. 614 W. Fifth. Tel. 11581.

Had about six calls and sold piano after first time ad appeared.

Republicans Map Relief Program

House Minority Members
Want Administration
Returned to States

Washington—(AP)—The Republican membership of the house proposed today that relief administration be returned to the states through a system of federal monetary grants.

This plan will insure that a larger share of each relief dollar will go into actual relief purposes than is the case under the present system of extravagant political control," said an announcement from a caucus of minority representatives.

The Republicans adopted a proposal of Representative White (R-Ohio) that federal grants to states be made on a non-partisan basis, that administration be vested in state and local authorities, and that each state contribute at least 25 per cent of the cost of its relief.

The conference did not estimate the cost of next year's relief, but Senator Vandenberg (R-Mich.) jointly recommended an expenditure of \$1,250,000,000. They too proposed "home rule" and "home responsibility."

Informed congressmen, meanwhile, said a house subcommittee had sliced \$500,000,000 from the president's \$1,500,000,000 work-relief demand for the year beginning July 1. Representative Boland of Pennsylvania, the Democratic whip, predicted the house would restore the reduction.

The senate, debating a proposal to build a new \$112,000,000 dam in the Tennessee valley, heard Senator Tydings (D-Md.) declare yesterday that another depression is coming and the nation must prepare for it.

Gets 5-Year Sentence In Bogus Checks Case

Milwaukee—(AP)—Federal Judge F. A. Geizer today sentenced Kalistrat Somochovich, 38, Chicago, to five years in the Leavenworth penitentiary on his plea of guilty to a charge of passing counterfeit WPA checks here.

Somochovich was arrested here Feb. 27 after he and two others, federal authorities said, had passed checks for two days. Authorities said he admitted passing 20 checks ranging from \$22.50 to \$85.50.

Claiming he didn't know the checks were bad, Somochovich told Judge Geizer the checks were given him by Charles Lucas, Chicago, now in county jail awaiting trial on a similar charge.

"I don't believe you," said Judge Geizer.

Walter Datz, 44, Milwaukee, also is awaiting trial on a similar charge.

Edithon Beach Property Is Sold for \$187,000

Kenosha—(AP)—The Edithon beach property of the late Mrs. Edith Rockefeller McCormick, Chicago, was sold at a sheriff's sale yesterday for \$187,000 to satisfy judgments of bondholders.

The three-mile strip of lake front property, originally valued at \$2,000,000 and financed with a bond issue of \$1,335,500 was purchased by trustees for the bondholders, the American National Bank and Trust company, Chicago.

Edithon beach originally was planned as a restricted community for multi-millionaires. Realization of such a plan was thwarted by the depression in 1929. Mrs. McCormick died in 1932.

The property will be resold to apply toward \$425,000 in claims against it.

Development Authority Bill Has Strong Backing In Assembly Test Votes

Madison—(AP)—Assembly supporters of the administration's Wisconsin Development Authority bill, ignoring charges they were attempting to plunge Wisconsin into state Socialism, mustered an impressive majority in support of the measure on several test votes today.

By such substantial margins as 59 to 30 and 54 to 42, they rejected unacceptable amendments, one of which practically would have done away with the WDA, and adopted only those amendments proposed by Progressives whose votes may be needed to pass the bill.

Progress toward a conclusive roll call was running along smoothly following a caucus of the administration forces last night and all amendments were out of the way when Assemblyman James T. Cavanaugh (D), Antigo, offered a substitute bill.

The house majority obtained a favorable ruling from Speaker Paul Alfonsi that the substitute, which was three pages long, and not in printed form, could be taken up at once, but a motion to do so lost on a 48 to 48 tie after several members declined to vote on Cavanaugh's proposal until they had an opportunity to examine it.

Assemblyman Andrew J. Biemiller (P), Milwaukee, author of the bill, turned to page 2 col. 5.

President Roosevelt Rests at Son's Home

Fort Worth, Texas—(AP)—President Roosevelt rested today at the home of his son Elliott after an address at Texas A. and M. College in which he defended arm and navy expenditures.

Only an informal barbecue at Elliott's estate was on schedule before he left for Washington before midnight.

Speaking informally to about 15,000 persons, including 3,000 R. O. T. C. cadets, in the stadium at Colgate station late yesterday the president declared the United States, despite an expenditure of 10 or 11 per cent of its income for national defense, was "not paying a high price" for such purpose.

"Most of the nations of the old world are spending 30 and 40 and even 50 per cent of their government cost on their armies and navies."

"We know another thing—that our preparation is honestly made for defense and not for aggression," he added.

Attacks Bill for Ban On Issuance of Stamps

Madison—(AP)—Senator Michael Kresky (P), Green Bay, launched an attack today on the Young bill, already approved by the assembly, forbidding issuance of trading stamps on trademarked merchandise after advertisement.

The senate recessed until 7:30 tonight without coming to a final vote on the bill.

A Kresky declared the measure discriminatory and probably unconstitutional. He said it was the outgrowth of "the mistaken notion that giving a stamp is a reduction in the price of the merchandise. Stamps are a type of advertising and merchants consider them an advertising cost."

Senator E. M. Rowlands (P), Cambria, author of an anti-price discrimination bill now pending before the senate, replied that the present situation is "discriminatory in favor of these stamp people."

When night fell, the report added, General Francisco Franco's insurgents still held positions they captured four days ago on the Merida highway, west of Toledo. Today's combat was south of the Tajo river which skirts Toledo on the south.

As the battle developed, insurgent commanders came to view the government attacks as a major offensive aimed at wresting Toledo from Franco. The insurgents seized the city last October and delivered comrades from a weeks-long starvation siege in the historic Alcázar.

Yesterday's struggle started before dawn with artillery pounding the insurgent entrenchments. In the early morning light, defending troops in one sector saw a squadron of 12 tanks rolling toward them across a plain, followed by a long line of infantrymen.

The battle raged all day. Five successive attacks by the government forces turned no-man's-land.

Two Men Drown In Auto Accident

Third Escapes After Car
Plunges 65 Feet Into
Milwaukee River

Milwaukee—(AP)—Two men drowned today and another was injured when their automobile skidded on the Locust street bridge, crashed through a guard rail and plunged 65 feet into the Milwaukee river.

The dead: Henry Gorski and Henry Nass, Jr., both of Milwaukee.

Walter Beckman, 26, their companion, suffered head cuts and was treated for exposure and shock.

The car landed upside down on about five feet of water after mounting the sidewalk, and ripping out two 15-foot sections of the guard rails. Tire marks indicated the machine skidded 134 feet.

Beckman cut a small hole in the car with a pen knife to get air. Twenty-two minutes after the crash, a fire department rescue squad took Beckman from the car. Fifteen minutes later the bodies of the other two men were removed.

An examination of Nass' body disclosed a skull fracture. Gorski's body showed no injuries.

"Boy, was that water cold," Beckman remarked as he was being rowed to shore. He then asked for a cigar.

Detectives Harry Cronce and Sheldon Jens, who questioned Beckman at the hospital, said he told them he had not known Gorski and Nass until they met in a tavern early today. They became friendly at the bar, he said, and visited several other taverns before starting for home.

Truck Drivers' Strike Concluded in Milwaukee

Milwaukee—(AP)—A threatened shortage of fresh fruits and vegetables was dissipated today with the end of a strike of truck drivers at 40 commission houses.

A contract signed last night by the truck drivers' union and employers called for a modified closed shop, a 48-hour week, time and a half for overtime and a 13 per cent wage increase to 67 cents an hour for drivers and 60 cents for helpers.

Kewaunee—(AP)—Overcome by fumes escaping from a can of varnishing while working at a Kewaunee brewery, Emil Brusky, 34, died at his home here late Tuesday afternoon. Dr. W. M. Wochos was summoned and revived him, but the fumes had affected his lungs, causing death.

Loyalist Infantrymen Charge Rebel Positions in Drive to Take Toledo

Toledo, Spain—(AP)—Wave after wave of government infantrymen charged insurgent positions south of this ancient imperial city today in the face of what insurgents described as "unprecedented" slaughter.

The official insurgent communiqué, describing the combat of the last four days as one of the greatest battles on the central Spanish front, quoted government prisoners as saying 3,000 of their comrades had been killed and that the number of dead and wounded was incalculable.

When night fell, the report added, General Francisco Franco's insurgents still held positions they captured four days ago on the Merida highway, west of Toledo. Today's combat was south of the Tajo river which skirts Toledo on the south.

As the battle developed, insurgent commanders came to view the government attacks as a major offensive aimed at wresting Toledo from Franco. The insurgents seized the city last October and delivered comrades from a weeks-long starvation siege in the historic Alcázar.

Throngs Hail George VI And Elizabeth as They Win Crowns of Empire

King Pledges Service to Entire Empire in Radio Speech Over Big Network

London—(AP)—King George VI, newly crowned, tonight thanked his empire around the world from Buckingham palace on a vast radio network.

His reply to broadcast greetings from the fourth of the world he rules, was:

"It is with a very full heart I speak to you tonight. Never before has a newly crowned king been able to talk to all his peoples in their own homes on the day of his coronation. Never has the ceremony itself had so wide a significance for the dominions are now free and the people partners with this ancient kingdom. I felt this morning that the whole empire was in very truth gathered within the walls of Westminster abbey, to rejoice that I can now speak to you all wherever you may be, greeting old friends in distant lands and as I hope new friends in those parts where it has not yet been my good fortune to go.

Search Wreckage Of Zeppelin in Clue in Disaster

Experts Hunt for 'Incendiary Bullets or Parts' of Bomb

Lakehurst, N. J.—(AP)—Three members of the New York city police department's bomb squad and the head of its criminal alien bureau searched the wreckage of the Hindenburg today as the theory of sabotage again was thrust vigorously into the forefront of the investigation of the zeppelin disaster.

Labert St. Clair, press liaison man for the department of commerce investigating board which resumed hearings today, said the New York detectives were searching for silver-tipped "incendiary bullets or parts" of a bomb.

Two of the world's leading lighter-than-air craft experts, Dr. Hugo Eckener and Captain Anton Heinen, have said the possibility of sabotage should be looked into.

The three New York bomb squadmen, St. Clair said, were Lieutenant James Pyke, Detective Christopher Kelly and Detective George McCarty. The criminal alien investigation was Detective George Ballenstadt.

Others in Search

Others who joined the search of the twisted and burned skeleton of the once-mighty sky queen were Harry Campbell, chief of the bureau of explosives in New York which does much work for the interstate commerce commission; and Detective Arthur Johnson of the New York city police who met the Hindenburg on each of its many arrivals here last year.

Crowd Fights to See Royal Parade

London—(AP)—They danced George the Sixth's coronation into history today in one of the maddest spins this many old city ever saw. At dawn, an estimated 10 million spectators struggled for 16 hours to get to the coronation street scene in the face of a rain that poured down the gutters along the six-mile parade route.

Two million more were swelled their ranks. They were late sleepers. They didn't get up until 6 o'clock A. M. They poured into the jammed west end like flies.

Then came the special trains from the provinces, and London's vast subway system poured hundreds of thousands more into an area long crowded past the saturation point.

A heavy fog, which threatened to turn the coronation street scene into chaos with literally millions groping like moles through the mist, lifted at daybreak. But the sky remained overcast and the mercury dropped to 45 degrees.

Green Bay Chauffeur Is Killed in Collision

Green Bay—(AP)—Chris Dix, 56, chauffeur for the family of the late Dr. R. E. Mahan here for almost 30 years, was fatally injured when his car crashed head on into one driven by William J. Collins of DePere on Highway 41 about two miles south of this city shortly after 8 o'clock this morning.

Dix died in a local hospital about two hours after he was taken there with severe internal injuries. Collins received a fractured leg and numerous cuts about the head and face.

King and Queen Consecrated at Westminster Abbey

MILLIONS CHEER
Edward and Wallis Listen to Broadcast of Ceremonies

London—(AP)—Exultant Britain crowned and consecrated its sovereign, George VI, and his radiant Elizabeth today and hailed them with the thunder of a million cheers and the glory of a valiant past.

Torrents of rain, threatened all day long, beat down on their triumphal, dazzling cavalcade at the end of the greatest day of splendor England ever saw.

At the stroke of half past twelve, the venerable hands of Cosmo, archbishop of Canterbury, placed the great St. Edward's crown upon the king's brow, within the walls of Westminster abbey, walls that looked down upon the thirty-sixth king they have seen so crowned.

The coronation of the Scottish queen, Edward Heats Broadcast

Across the channel in a French chateau a man and woman listened—Edward, once king, and Wallis Warfield, for whom he gave up this day. Their wedding, postponed by a disagreement between the royal family and government in London town, may be in June.

King and Queen Mother want full recognition of Edward's world-wide nuptials. It was hinted; the government wants the wedding strictly private.

A million folk and more cheered and strained for a glimpse of king and queen as their majesties rode in a golden coach of state to the coronation in Westminster abbey of the ruler of 50,000,000.

Hours later, when the king, anointed and crowned in his holy and imperial office, rode back to Buckingham palace in a regal procession, through densely thronged streets, a sudden downpour drenched his patiently waiting subjects.

George Is Crowned

With scepter, sword and orb, in rich raiments of church and state, seated in the scarred and ancient oaken coronation chair above the hallowed stone of Stone, he received the crown on bowed head and heard the joyous shouts of millions: "God save the king!"

The resplendent congregation of 7,500 within the walls that now have seen the crowning of 28 English kings, became a dazzling, blinding thing. Bejeweled, vividly informed, richly gowned, it moved in solemn homage.

The thunder of the throng rolled in from the path of kings—six and one-half miles of gorgeous procession, back to the gates of Buckingham.

Lifted to Throne

The two-hour ceremony was climaxed when the 41-year-old sovereign was lifted reverently to the throne, in the sight of 7,500 peers and peeresses, foreign rulers, diplomats and statesmen from all over the world.

Church bells pealed to signal that the priceless jeweled crown of St. Edward had been placed on the brow of George VI.

Queen Elizabeth then was anointed and crowned in a briefer ceremony immediately following the coronation of the king.

There was not a visible flaw in the coronation of the king.

At just half past twelve (5:30 A. M. C. S. T.) the archbishop said a solemn hush in the splendor of the abbey scene, lifted the jeweled symbol of the British throne, held it with outstretched arms towards the heavens and placed it gently on the head of the man who chose to rule in his brother's stead.

Princesses Watched

Throughout the ceremony, 11-year-old Princess Elizabeth, heiress presumptive to the throne, gravely and intently watched the impressive scene.

Petitions Asking Recall of Kaukauna Mayor are Returned

Petitions, asking recall of Mayor John Nielsen of Kaukauna, today were returned to the petitioners by County Judge F. V. Heinemann for corrections.

Although the petitions carried the signatures of more than 950 persons, many of the signers failed to place their post office address, in addition to their street address, after their names, as required by statute. Some corrections also must be made in affidavits accompanying the petitions.

Under the law the petitioners have 10 days in which to make the corrections but leaders of the movement to recall Mayor Nielsen said this afternoon that the work already is under way and probably will be completed in two or three days.

If the petitions, an outgrowth of an altercation in a Kaukauna tavern in which a German-Jule Jertes was injured, are returned to the county court and found correct, they will be certified and returned to the Kaukauna common council. A recall election then is mandatory.

Board Engages New Assistant Physiotherapist

Subcontracts for Work at New High School Approved Last Night

Miss Florence Miller, a graduate of the University of Wisconsin and a trained physiotherapist, was engaged by the board of education last night as the assistant physiotherapist at the orthopedic school. She will succeed Miss Bernice Eitzer whose resignation is effective at the close of this school term.

Miss Hildegarde Krueger was engaged as the clerk in the auxiliary office of the board of education to succeed Miss Pearl Tesch whose resignation goes into effect June 5.

Results of tests taken by Appleton school children during the year will be compiled this summer by Miss Maria Sorensen, grade supervisor, and the results will be used in planning work for next year.

Approve Subcontracts

Subcontracts on heating and ventilating work at the new senior high school were approved by the board. The J. E. Robertson company, Wauwatosa, general heating and ventilating contractor, was awarded the temperature control subcontract to Johnson Service company, Milwaukee, and the sheet metal work contract for ventilation work to the Northern Metal and Roofing company, Green Bay.

Electrical equipment submitted by the Wadford Electric company, Chicago, contractors for electrical work at the new high school, was approved by the board. The equipment includes the Electro-Acoustic public address system; program bells by the Edwards Electric company; a Telechron clock system as distributed by the Stromberg Electric company; cove lights for the auditorium.

Enlarge Transformer Room

A recommendation by R. E. DeLong, technical adviser to the board, that the transformer room be enlarged was approved. Congratulatory letters will be written to Harold Hammen and Ben Morgan Lewis, high school seniors, who recently received scholarships from the University of Chicago and Oberlin college respectively.

Recommendation of the board of schools was authorized to take a committee of school principals and Clement Ketchum, high school faculty member, to LaCrosse to inspect conservation projects completed at the school.

The appointment of Cecil Furrminger as summer custodian of the McKinley Junior High school athletic field was approved by the board. Ceiling materials for the library, cafeteria and corridors of the new school were selected after consultation with the architects.

Appleton Boy Scouts Stage Model Meeting

Just how a real Boy Scout troop conducts meetings was demonstrated for Brillion scouts last night when eight scouts from troop 13, Appleton, staged a model meeting at St. Mary parish house, Brillion.

Boys taking part include Donald Smith, James Bradley, Robert Balliet, John Walsh, William Frawley, Waldo Puffer, John Zwicker and Hubert Du Chateau. Short talks on Valley Council activities were given by Walter G. Dixon, scout executive and C. G. Larsen, committeeman.

Brillion scouts will meet Friday night to definitely organize a Boy Scout troop. Joseph Binsfield, Brillion, was named temporary chairman to arrange the session.

dressed poor folk from the slums of Chapside, Whitechapel and Limehouse.

Scores of hundreds had clung valiantly to their posts since early yesterday afternoon.

Killed Boy Scouts erected steel barriers to keep back the crowds surging from every direction. At every intersection, they piled back nearly a block deep.

Children awoke in the chilly dawn and sprawled in the streets eating chocolate and drinking tea. It was bitterly cold and the day saw hundreds of shivering "campers" huddled around bonfires of burning newspapers.

Comfort was scarce. Men and women complained of aching, bun-sundering feet hours before the procession.

"But" as one cockney expressed it, "oldest, gummer, you don't see a King set crowded every day, now, do you?"

60 Acres of Land South Of City to be Platted

About 60 acres of land located in the town of Menasha, just south of the city limits of Appleton, are being surveyed and will be platted into about 1-acre lots, according to August Laabs, real estate agent. The plat will be known as Baldwin Heights. The land, part of the old Ludwig Gmeiner farm, is owned by C. H. Baldwin.

Other areas to be platted soon by Laabs will be at Sunset beach on Lake Winnebago in Stockbridge village and at Longview beach located midway between Waverly beach and Sherwood.

Most Homes Built Here in 6 Years Cost Under \$5,000

One-Family Residences Constitute 98 Per Cent Of Construction

Washington—Seventy per cent of the single-family homes built in Appleton from 1929 to 1935 cost under \$5,000, according to the Bureau of Labor Statistics.

Building of one-family houses comprised 98 per cent of all residential construction during the seven year period. Of these 566 homes, 444 or 78 per cent were built of wood, 78, or 14 per cent were brick and frame, and only five per cent of brick.

Fourteen one-family Appleton houses built during this period cost over \$10,000 and 34 cost under \$1,000.

Residential building was at its height in 1929, when 36 one-family homes were built in Appleton at an average cost of \$3,669. Since that year building declined and in 1935 only 15 houses were built at an average cost of \$1,589. Building began to pick up in 1934. In 1935, 36 houses were built in Appleton, 16 of frame and 3 of brick and frame. The average cost of the frame houses built that year was \$2,570 and of the brick and frame, \$5,150.

Of the total 576 residential buildings built during the seven years from 1929 to 1935, three were double and four were built with a commercial unit.

It is expected that this material, prepared under the supervision of the Bureau of Labor Statistics with the cooperation of the Works Progress Administration, will be used in congress in connection with the Wagner-Elbogen housing bill.

6 Post Offices To be Advanced

Amherst Junction Is One Included in Badger List

(Post-Crescent Washington Bureau)

Washington — Six Wisconsin fourth class post offices will be advanced to the presidential grade on July 1, according to the post office department. They are:

Amherst Junction, Dalton; Ellison Bay; Elm Grove; Larsen, and Loreto.

Present postmasters and approximate salary of those near Appleton are:

Amherst Junction, Haylor G. Kozickowski, four years service, \$1,100.

Dalton, Archie L. Foley, two years service, \$1,100.

Ellison Bay, Winifred Rogers, two years service, \$1,073.

Larsen, Charles D. Cross, eight years service, \$1,087.

New postmasters will be appointed at all offices after July 1, when the offices are advanced. Date for examination for the offices will be set later by the Civil Service commission. The successful candidate in each case must be nominated by the president and confirmed by the Senate. Appointments are for a four year term on good behavior.

THOUSANDS CROWD STREET CARS IN LONDON BUS STRIKE

This picture gives some idea of the transportation problem facing London since 26,000 bus drivers went on strike just as pre-coronation activities were at their height. White Bass Start Biting As Winnebago Plans For Annual Fish Festival

(Post-Crescent Oshkosh Bureau)

Oshkosh — "Time and Tide," so the proverb goes, wait for no man and those silvery fish called White Bass, whose home address is the bottom of Lake Winnebago, have served notice on Winnebago, Inc., among others, that they don't need anyone to set the date when to start their trek up the Fox and Wolf rivers to the spawning beds.

Several weeks ago the directors of Winnebago, Inc., a non-profit corporation formed to promote tourist activity in the Fox River Valley, went into a huddle and decided it would be proper to have the White Bass start upriver on or about May 15. For that was the starting date set for the White Bass festival, and what use is a festival without the person (or fish) honored?

Apparently, nobody informed the White Bass about this.

For, in spite of the fact that the "Princess of Winnebago Waters" has been elected, and Mayor C. A. Wischering, Oshkosh, is prepared to crown the "young lady" Saturday night, White Bass began to appear in great numbers last Friday night and have made sporadic appearances since. Fremont, Winnebago, and other upriver points also report many have arrived in that vicinity.

Start Biting

Several warm days and nights brought the lilac buds out last Friday and that very night the White Bass began to take the hook most viciously. Just what the lilac buds have to do with White Bass has never been completely explained but the old time fishermen in these parts swear by the appearance of the buds as a signal to polish up the fishing tackle. And they always seem to be right.

At the present rate of migration and with continued warm weather it is entirely possible that most of the "papa and mama" White Bass will be safely up in the spawning beds before the Oshkosh White Bass princess reaches for her wand, come Saturday night.

Some of the out-of-town fishermen who are already making Oshkosh a "Mecca" appear to be very uncertain as to the proper fishing "gear" and the correct method to snare the Bass.

It is not unusual to see parties of four to six determined fishermen (and women) appear, laden down with up to 50 long bamboo poles measuring up to 30 feet in length, announce their intention of climbing into one row-boat to head out into the mouth of the Fox River.

Arguments Futile

Arguments with most of these rabid fishermen are futile, though it be pointed out there are easier methods to commit suicide. It makes no difference how many times they are advised to use small rods in boats, measuring only two to four feet. It makes no difference how many times they are informed as to the proper bait or the correct depth to fish.

And when you mention bait: there are many schools of thought around Oshkosh on this subject.

Some swear by the large "Milwaukee minnows" and refuse to fish unless they have them. Others disdain minnows entirely and use "night-crawlers" or small angleworms. Some look for a type of minnow called a "crounder" when the sun is especially bright.

But old time Oshkosh fishermen know from experience that when the White Bass are migrating they are hungry and will bite on most anything, provided it is of a white or at least light color. During this migration White Bass bite as readily on dead minnows as live ones; they bite on a piece of white skin from the underside of a White Bass known as "white bait," and they even snap at artificial lures.

Short Rod Best

Tips on the proper fishing tackle include a short rod no longer than an umbrella handle, when fishing from a boat, and to use regulation bass hooks with a gut leader attached. State laws this year frown on the standard practice of using one long gut leader with two hooks attached.

During the day the best place to fish for White Bass and Pike, ancient anglers have proven, is in deep water, preferably the channel,

with the live minnow about one foot off bottom. In late afternoon, they say, come up several feet, and at night between three and four feet below the surface is where Mr. and Mrs. White Bass travel.

Peculiarly enough, White Bass are hungrier at night, and more fish are caught in the wee small hours than at any other time. Sometimes the White Bass begin biting at 11 o'clock; sometimes midnight is the "witching" hour, and many nights they will bite close to 2 o'clock.

Crowds At Bank

Just why the White Bass bite best at night cannot be learned. But they do, and crowds line the banks of the Fox River each year, or squat in boats and hang blinding gasoline lanterns close to the water.

In the last few years these gasoline lanterns have become standard equipment for the White Bass run. They make baiting the hook easy, throw some heat on the damp chilly nights, and seem to attract the fish.

Shortly after the first White Bass began biting Friday crowds of Oshkosh fishermen, augmented by Milwaukee and Chicago anglers, trooped to the river, informed by that mysterious "grape-vine" known only to followers of Isak Walton.

The first White Bass of 1937 appeared in Oshkosh frying pans Friday and Saturday, and mough said that they were very delicious. Many Oshkosh residents eat White Bass only at the start of the season, claiming that later in summer their flesh becomes soft.

However, those who know how to prepare them, enjoy the Bass throughout the season.

Keep Alive

Experts in this line claim White Bass should be kept alive until ready to scale and clean. Many even bone White Bass while cleaning them. However, they have but one big bone down the center and this lifts out easily after they are fried.

After cleaning, they should be rubbed with salt and left to stand overnight on ice. Among other methods, they may be rolled in crackercrums and fried thoroughly. And, to really preserve the taste, a sauce of horse-radish and catsup or other sharp condiment should be served with them.

Loomis Issues Opinion On Lobby Registration

Madison — A statute relating to registration of lobbyists applies only to persons employed to influence legislation, Attorney General O. S. Loomis advised Secretary of State Theodore Dammann today.

The opinion stated specifically that the legislative committee chairman of a non-commercial voluntary association of newspaper publishers does not have to register. The same ruling applies, Loomis said, to attorneys who merely advise as to pending legislation and do not attempt to influence the legislature.

Man Born at Marinette Is Citizen Second Time

Milwaukee — Arthur Gallert, 46, who was born in Marinette, Wis., became an American citizen for the second time yesterday when he was granted citizenship papers by Circuit Judge John J. Gregory.

Gallert went to Canada in 1911 and joined the British army through a Scotch regiment at the outbreak of the World war, forfeiting his citizenship in this country. He returned to Milwaukee in 1921.

Two of Gallert's children can claim United States citizenship but a third must be naturalized.

Miss Ida Sullivan, 207 S. Meade street, has returned from a week in New York City.

Kaphingst Herd Leads in April Milk Production

Grade Holsteins Average 55.4 Pounds of Butterfat in Month

A herd of 25 grade Holsteins owned by Fred C. Kaphingst averaged 1,609 pounds of milk containing 55.4 pounds of butterfat to set high record for April in the Outagamie County Holstein Herd Improvement association No. 2, according to Leonard Eggleston, fieldman. The herd was tested April 15 and retested the following day.

Louis Timm's 19 grade Holsteins averaged 1,160 pounds of milk and 40.5 pounds of butterfat to take second place. Henry Woestenberg's eight registered Jerseys averaged 708 pounds of milk and 37.7 pounds of butterfat to place third while an average of 1,113 pounds of milk containing 37 pounds of butterfat gave the Joseph Fassbender and Son herd fourth position. Huebner Brothers herd of 22 cows was fifth in the line with an average of 1,036 pounds of milk and 35.6 pounds of fat.

Cows in the Kaphingst herd took first, second, third and fifth place for individual records, producing, respectively, 2,223 pounds of milk containing 81.1 of butterfat; 75.7 pounds of butterfat, 74.7 pounds and 71.1 pounds. Fourth place was taken by a cow in the Arnold Lemke herd with a record of 1,866 pounds of milk containing 74.6 pounds of butterfat.

Members of the association who own cows which produced 50 or more pounds of butterfat in April are Joseph Fassbender and Son 2, Alfred Bungert 1, Frank Laudon 2, Victor Bohl 2, Louis Timm 5, Huebner Brothers 2, Arnold Lemke 2, William Tiedt 1, Joseph Uetschig 1, Fred Kaphingst 14, Edwin Lemke 1, L. C. Huebner 2, Lawrence Bentle 1, Edward Roessler 1, Edwin Beckman 1, Mrs. Mary Samba 1.

Appleton Church Represented at Diocesan Meet

Episcopal Council Is Held Tuesday at Fond du Lac Cathedral

All Saints Episcopal church of Appleton was represented at the sixty-third annual council of the diocese Tuesday at St. Paul's cathedral in Fond du Lac by the Rev. William J. Spicer, rector, C. E. Hockings, Dr. John Millis, Mr. and Mrs. Charles Baker, John Moyle, Mrs. Fred Poppe and Mrs. Ben Russell.

Both the Rev. Mr. Spicer and Mr. Baker were elected to the executive board, governing body of the diocese, and Mr. Baker was also elected to the standing committee. Dr. Millis was elected lay deputy to the general convention which will be held in Cincinnati in October, and the Rev. Mr. Spicer was named alternate clerical delegate from the diocese.

Bishop Presides

Bishop Harwood Sturtevant called the session to order Tuesday morning following a communion service. More than 100 lay and clerical delegates were present, and members of the Woman's auxiliary held a separate meeting in the parish house.

Following a luncheon in the parish house at noon, the council reassembled to conclude its business session, followed by a conference on laymen's activities. Highlight of the afternoon session was an address on "Religious Education today," by Dr. D. A. McGregor, national director of religious education for the Episcopal church. Bishop Sturtevant gave his annual charge to the diocese at the annual council dinner held in the Hotel Rellaw in the evening.

original bill, asked and obtained consent to proceed with the measure at 10 a. m. Thursday.

Principal amendments adopted were these:

Limiting the activities of the WDA to recently incorporated private organizations, to the field of public utilities and excluding the telephone business.

Providing that the state government shall not be responsible for any debts incurred by the WDA.

Fight On Substitute

The major battle came on a substitute by Assemblyman Vernon Thomson (R), Richland Center, which eliminated all reference to the WDA and set up an agency in the governor's office to promote rural electrification exclusively.

By a vote of 54 to 42 the house sustained a ruling by Speaker Alfonsi that Thomson's proposal completely altered the purpose of the original bill and could not be considered.

Previously Assemblyman Biemiller had charged the private utilities had been disseminating propaganda widely, and were attempting to throw out a smoke screen to frighten the people of the state.

In reply Thomson asserted:

Charges Propaganda

"There has been in support of this bill the greatest mass of propaganda from the governor's secretary, Thomas M. Duncan, and from the state rural electrification office than has been seen in this state since the introduction of the works bill two years ago."

The Republican assemblyman contended that spokesmen for the governor's office had claimed publicly before committees that the sole purpose of the WDA was to promote rural electrification.

"If you believe in the promotion of rural electrification vote for my substitute," Thomson said. "If you want state socialism with the approval of Mr. Duncan vote against it."

The senate laid the Kanneberg WDA bill, companion to Biemiller's measure, over until next Wednesday.

Soil Conservation Work Increasing "Edge" Zones

"Edge" is a word likely to become familiar to sportsmen and farmers as the nation grapples with the problem of soil defence, a department of agriculture report received by R. C. Swanson, county agent, states.

"Edge" is the narrow zone where one form of ground cover stops and another begins. It may divide forest from pasture or from cultivated fields, or the break may come between meadow and hedgerow. The margin of a stream or pond is "edge" as is the seashore, and the dividing zone between a sharply drained slope and a bottom-land marsh.

New developments of "edge" appear in soil conservation work, particularly in strip cropping, the planting on contours of close-growing soil-holding, slit-catching bands of plants between cultivated strips.

"Edge" is favorable to a rich and varied plant and animal life. Birds and animals thrive in the edge zone where they can turn to the best in two contrasting environments. Food is more varied and abundant and there is more protection. Shore birds, for example, are a great and varied group inhabiting an "edge" and choosing what they wish of both land and sea. Dense forest shades out undergrowth and is unfavorable to wildlife, but where it changes to open grassland, the berryed shrubs thrive, insects and other food are abundant, and birds and animals multiply.

Nearly all activities of the soil conservation service are increasing the "edge" on farms. Strips, terraces, hedgerows, windbreaks, and the planting of shrubs, vines, and cover crops for soil protection, all help increase the variety and abundance of food and cover for birds and animals.

Students Cited For Attendance At Rural Schools

COMMISSION SEEK BIDS

Bids on grading, draining and gravel surfacing of 3.617 miles of that portion of Highway 54 known as the Waupaca-New London road, will be opened by the state highway commission at Madison May 19. F. T. Appleton, county highway commissioner, has been informed. Separate bids will be taken on the graveling and on the grading and draining.

Appoints Committee to Confer With Doctors

Aldermen Vander Heyden, Kubitz and Keller have been named on a special committee by Mayor Goodland to confer with a like committee of the Appleton Medical society on a possible reorganization of the health department next fall when the budget for 1938 is set.

The mayor was instructed to appoint the committee by the common council at its last meeting upon the motion of Alderman Keller. Study of the health setup by the committees was suggested by the medical society after the council decided against appointing a full time health officer and city physician, which was proposed by the society.

Three Cars Damaged In Traffic Accident

Three cars were slightly damaged in a minor traffic accident on W. Washington street at 8:25 Tuesday evening, according to police.

When cars driven by Roland Redland, 615 W. Summer street, and Harry Barboia, Berlin, both going west, collided, the Barboia car was forced against a parked machine bearing plates issued to Steven Rosebush, 411 E. Washington street, the police report shows. No one was hurt.

Would Register All Child Deformities

Milwaukee — Miss Frances E. Shirley, Pittsburgh, urged all states to adopt a Wisconsin law requiring physicians to report child deformities to the state board of health.

In an address to the International Society for Crippled Children and the Wisconsin Association for the Disabled yesterday, she said complete registration of cripples would help private agencies discover and aid them.

COMMITTEE TO MEET

Members of the finance committee of the common council will meet at the city hall at 1:30 Friday afternoon. Bills will be acted upon.

Farley Machine Brings Pressure To Bear on Senate

Democratic Committee Chairman Predicts Victory in Court Fight

BY DAVID LAWRENCE

Washington—If anybody had suggested one year ago that political machines dominated by political bosses would some day seek to determine the make-up of the supreme court of the United States, it would have been promptly rejected as preposterous and impossible in America.

Yet today, behind the scenes, in the many covert ways that political manipulation of state legislatures, the votes of members of the senate are being lined up by pressure from the political bosses back home.

Since the president launched, on Feb. 5, his proposal to "pack" the supreme court, Postmaster General Farley, who is also chairman of the Democratic national committee, has been making trips to various states and has kept in touch with the men who are most influential with the Democratic senators in Washington.

By various devices, a national political machine, which has done favors for the local political bosses through the allotment of government funds, can bring to bear pressure on legislators here.

Perhaps the most interesting evidence of the alertness of the New Deal machine to the importance of getting votes for the court bill sponsored by the president was the appointment of Major Berry to fill the vacancy caused by the death of Senator Bachman of Tennessee. Logically, the position should have gone to Congressman McReynolds of Tennessee, who is chairman of the house foreign affairs committee. Governor Gordon Browning of Tennessee visited Washington and talked with President Roosevelt before he announced the appointment of Major Berry.

Gain One Vote
Mr. Bachman was one of those who leaned toward the opposition side of the court debate, while Mr. Berry is outspoken for the president's plan. Thus the New Deal has gained one vote.

Under other circumstances, in the wicked old days when state legislatures used to elect United States senators and when improper influences were brought to bear to elect them, there would have been hue and cry if the president of the United States or any member of his cabinet had taken the liberty of even discussing the selection by a state of its United States senator.

Today, the intervention by the chief executive in Washington can, without exciting more than a ripple of criticism, extend not only to discussion of prospective appointees with governors, but actually to the operations of the Farley machines which today are arranging to put up candidates in the Democratic primaries next year to battle against those Democratic senators who have the temerity to vote against the proposal to "pack" the supreme court.

Funds Are Weapon
What is happening before the eyes of the country is the activity of political machines preparing to "pack" the senate of the United States next year, especially in those states where the results of Democratic primaries are equivalent to an election. The biggest weapon, of course, of these political machines is the support they get from the national government in the allocation of public funds to be spent in their respective districts.

Almost without exception, the political bosses in the big cities which dominate the electoral vote of a given state and likewise who hold the balance of power in state primaries are on excellent terms with the Farley management of the Democratic party. These working alliances have made it possible for the chairman of the Democratic national committee to make another prophecy—namely, that he has the votes to put through the president's proposal. On the surface, it

has seemed that the opposition to the packing of the court was making real headway and that it might have a margin of five or six votes, but, when Mr. Farley says he "has the votes," most every body who is familiar with the practical politics of the situation is inclined to believe that Mr. Farley knows whereof he speaks.

Show Little Concern
It is not surprising that Mr. Farley has the votes, but what is surprising is that few people in America care enough about the votes the Farley machines get to insist that the congress of the United States find out how a number of its members are being influenced, if not coerced, in the exercise of their legislative functions. Last session, much was heard about lobbying by special interests, but not a word is heard this session about the most powerful lobby that was ever let loose on the United States senate—the lobby of political pressure engineered by the political bosses and their allies in Washington, the office holders and partisans.

Maybe there will be satisfaction and joy to the New Deal if it does triumph with the court plan. But more victories of that kind will, in the not distant future, spell the end of representative government as it is used to be known before the federal government, by the use of public funds and public offices, became the most powerful lobbying agency ever in 150 years to apply pressure to the congress of the United States.

Community Grange Makes Plans for Memorial Day

Royalton—Mr. and Mrs. Carroll Ritchie and family and Mrs. Elizabeth Ritchie and sister, Margaret, were dinner guests on Sunday at the P. Hamre home in Berlin.
The Royalton Community Grange will sponsor Memorial day exercises at the Grange hall on May 30. The play, "Wake Up, Nora," was given under auspices of the Altar Guild Tuesday evening at the Grange hall. A large crowd attended. After the play the remainder of the evening was spent in dancing.
Mr. and Mrs. Ed. Lathrop of New London and the latter's parents, Mr. and Mrs. Irvin Casey, will leave on May 17 for an extensive auto trip. They will visit relatives in Arkansas and then go to California and Oregon where they will again visit relatives before returning home. Mrs. Myra Mix will have charge of the Casey store during their absence.
Mr. and Mrs. Helmerick will entertain the Delta Alpha Sunday school class at their home Saturday evening.
More than 100 persons attended the Dairyman's meeting and dance at the hall on Thursday evening.
Mr. and Mrs. Raymond Behnke, the Misses Eleanor and Evelyn Casey and brother, Donald, and Howard Goetsch, all of Milwaukee, spent Sunday at the Victor Casey home.

Valley Council Cubs Plan 1-Day Camp at Erb Park

Pet Show and Handicraft
Exhibits Will Feature
Encampment

A pet show and handicraft exhibit will feature the one-day "pow-wow" for Valley Council Boy Scout cubs Saturday, June 5, at Erb park, according to T. B. Wadsworth, council cub training leader. Parents have been invited to visit the camp.

Cub packs will arrive at the park at about 10 o'clock in the morning and immediately organize their own

camp. Chairmen will direct the packs to designated spaces and the cubs then will prepare a camp and handicraft display. Prizes will be awarded for the best pack work. The pet show will start at noon and continue for one hour. Any animal may be entered but each cub must care for his own pet. Prizes also will be awarded. Ralph Suess, Menasha, is in charge of the show.

Plan Softball Games

Pack stunts will be staged at 1 o'clock after which softball teams will be organized and inter-city competition started. Each team will play one game of five innings and the winners will receive awards.

Three novelty races including a three-legged race, potato race and pom pom pullaway will get underway at 3 o'clock in the afternoon and continue for one-half hour. All prizes won during the day will be awarded by the achieve-

ment council at 3:30. Test passing awards will be presented at this court of honor ceremony and badges given to every cub at the "pow-wow." Oscar Peterson, Menasha, is in charge of this council. Leaders in charge of the encampment include Halsey F. Hubbard, Robert Errington, Reuben Krause, Carl Sherry, Howard Bandy and T. B. Wadsworth, Appleton; Norman Hansen and Joseph Hough, Clintonville; Louis Hafemeister, Ralph Huess, Oscar Peterson and Elmer Buysyk, Menasha; and O. W. Thomas, Shawano.

Please Drive Carefully

Insurance Week Group Headed by Carl Sherry

Carl Sherry has been named general chairman of national life insurance week in Appleton and will be assisted by three general committees. W. E. Smith is chairman of the meetings and speakers bureau with M. G. Fox and J. Bon Davis selected as co-chairmen of the display and distribution group. Advertising, publicity and radio will be cared for by C. C. Baker and M. B. Herner, co-chairmen of the third committee.

The Appleton Life Underwriters association will inaugurate national insurance week with a breakfast meeting Monday morning, May 17, at the Conway hotel. Plans for the week's observance will be completed at that time. E. A. Dettman, Appleton, will be guest speaker at the session and discuss "Life Insurance and Its Relation to Taxation."

Invitations are Issued for Rural Day at High School

Expect County, Parochial Graduates to Attend Event

New London—Invitations to the first annual rural activity day at Washington High school Friday afternoon were sent to 60 graduating students of New London rural schools yesterday, according to L. M. Warner, Smith-Hughes agricultural instructor. A general invitation has been extended to the graduating classes of the New London parochial schools also, offering them the same privileges. The program is to familiarize the students with the school building and class routine before they enter as freshmen next fall.

A style show for the visiting girls will be presented by domestic science classes of Miss Gertrude Hoffman, Smith-Hughes instructor who is assisting Mr. Warner in the project. The high school girls will display their own handwork in the home economics rooms after school. During this time the boys will be entertained with playground activities outdoors. A 5:30 supper will be served free by the home economics classes.

The guest students will be admitted any time Friday afternoon and after visiting classes a special program will be held at an assembly in the auditorium immediately after school. Entertainment will be provided by high school musicians under M. S. Zahrt, director, and an address of welcome will be given by school officials. Probably at that time the guest tickets to the annual senior class 3-act play "Gun-Shy" will be distributed. The play will be given at 8 o'clock in the evening.

New London Society

New London—A christening party was held in honor of the infant daughter of Mr. and Mrs. Ervin Lang at their home Sunday. Guests at dinner were Clarence and Miss Ruth Smith, Tigerton; Mr. and Mrs. John Sewall and Mrs. L. Busher, Neenah; Mrs. L. Hohe, Milwaukee; and Mr. and Mrs. Ed Roloff, New London.

Plans for the homecoming July 3, 4 and 5 will be discussed by the American Legion and the regular meeting at the clubhouse Thursday evening. Hostesses for the meeting are Mrs. Walter Smith and Mrs. Harvey Greenlaw.

The Hospital auxiliary held a regular meeting at Community hospital Monday evening with Mrs. Peter Schuh, presiding as acting president. A report was heard on the membership drive and plans made to continue the project. A social followed and prizes at cards were won by Mrs. J. J. Kircher, Mrs. Anthony Riedl and Mrs. Louis Plumb.

Mrs. August Bratz entertained the Culbertson club at her home yesterday afternoon with prizes going to Mrs. Page Dexter and Mrs. Caroline Winter. Mrs. Dexter will be hostess in two weeks.

A guest of the Lutheran Social club yesterday afternoon was Mrs. Augusta Hoegge, Milwaukee, who is spending a week with her sister, Mrs. Loretta Roepke. Mrs. Will Brenske was hostess to the club and prizes were won by Mrs. Julius Fuert, Mrs. Alvina Hobbe and Mrs. G. A. Konrad. In two weeks Mrs. Fuert will entertain.

Mrs. Ben Hartquist entertained the Culbertson club at her home yesterday afternoon. Mrs. J. J. Burns took the prize. Mrs. Nugent was a guest of the club. Next week Mrs. J. W. Monsted will be hostess.

A general meeting of the Dorcas society of the Methodist church will be held at the church parlors Thursday afternoon. Instead of the usual hostess committee lunch will be provided by each individual member.

Mr. and Mrs. Alber Roloff, Mrs. Anna Hebe and Miss Helen Roloff were guests at a birthday party in honor of Mr. Ed Roloff at his home Monday evening. Saturday evening Mrs. Ed Roloff was hostess to the Evening Birthday club. Mrs. Page Dexter won first prize in cards for the ladies and August Bratz won the men's prize.

BUYS PIN ALLEYS
New London—The bowling alleys in the Lutheran Aid Association building at Appleton have been purchased by R. V. Prah, operator of Prah's Bowling alleys here. The alleys were to be transported to New London today for storage until next season. Prah said his plans for next year are indefinite.

Legislation prohibiting the sale of black bass regardless of where taken will be sought in 1938 this year, according to reports received by the bureau of fisheries.

New London Office
News and circulation departments of the Appleton Post-Crescent are represented in New London by Alvin J. Brault, 103 E. Cook street. News items and orders for subscriptions may be left at that address or may be telephoned by calling 18. Papers missed by carriers will be delivered if complaint is made before 7 p. m.

LEAD SENIOR CLASS IN SCHOLARSHIP

Future Farmers Awarded Exhibit

New London Group Is Given Space at State Fair At Milwaukee

New London—For the first time since its organization several years ago the New London chapter of the Future Farmers of America has been awarded a booth in the Future Farmer display section during the annual Wisconsin state fair at Milwaukee in August, it was announced this week by L. M. Warner, chapter advisor at Washington high school.

Booths are awarded to 20 of 135 chapters in Wisconsin each year. The New London group has chosen cabbage marketing as the subject for the booth. Two members of the local group will spend the entire week at the fair tending the booth with all expenses paid. The two boys are Keith Finch and Marlin Fuert, who were awarded the honor for selling the largest number of tickets for the rural 1-act play tournament sponsored by the chapter recently.

In past years the New London chapter has sent several official delegates, usually for a 2-day attendance.

Six New Members Taken Into Club

Judge A. M. Scheller Presides at Ceremonies At New London

New London—Judge A. M. Scheller of Waupaca, past district governor of the Lions club, inducted the six new members of the New London club at a program at the Elwood hotel yesterday noon. Scheller confined his talk to the aims, ideals and accomplishments of the Lions organization. The new members are George Schriver, Ervin Buss, Roy Queeman, Leo Blaschka, H. A. Grasz, and H. G. Salter. M. C. Trayser, Leonard Cline and C. M. Tribby were named a nominating committee to suggest officers for the new year. There will be no regular meeting next week because of the joint safety meeting with the Rotary club on Wednesday evening and in order to name official delegates before the state Lions convention at Racine May 23, 24 and 25, balloting for new officers will be conducted by mail and completed this week. Dr. George W. Polzin, secretary, will handle the voting.

Cost of Feeding Transients Last Year Totals \$248

Decrease of \$638 in All Relief Costs Noted During April

New London—The meal ticket for transients stopping in New London amounted to \$248.60 during the year May 1, 1936, to May 1, 1937, according to a report completed this week by the city relief department. This cost is borne by the county and apportioned between Waupaca and Outagamie counties. It was explained by W. E. Lipke, poor commissioner.

Local relief costs for the city began a trend to normal during the month of April with a decrease of \$638.04 below the cost for March. Warmer temperatures were reflected in the decreased output for groceries and fuel during April which accounted for most of the total decrease though there was only one less in the number of cases.

Fuel dropped \$317.83 from \$612.56 to \$294.73; groceries dropped \$332.43, from the all-year high of \$1,254.78 to \$922.35. A decrease of about \$70 in rental costs just balanced an increase in the cost of medical care for April while the smaller items fluctuated little.

Total local relief expenditures for 109 cases in April was \$2,030.94 and in March it was \$2,668.98. Transient costs were affected in the same manner and showed a decrease from \$582.41 to \$375.80 with an increase of one case, from 19 to 20 in number. One New London family in Milwaukee county cost the city \$22.39 in April while three cases in that county cost \$53.38 during March.

Band Will Play at Holy Name Meeting

New London—New London Band Boosters are having the high school band uniforms cleaned this week in preparation for the Holy Name rally at Neenah-Menasha Sunday and the concert music festival at West DePere on May 22. The booster organization held its last meeting of the school year Monday evening and closed its activities with the all the new band uniforms paid in full.

At the business meeting the new constitution was read again but adoption was deferred until next September. It also was decided to hold socials after each business meeting next year.

QUEEN AT CHILTON

Miss Betty McMullen, who appeared in a state fair contest last fall as Miss Chilton, winning second place in the statewide competition, will be queen Friday evening at the junior prom at Chilton. She is a member of the Girls' Glee club, the Girls' Athletic club and the Dramatic club of Chilton High school.

Dorcas Guild Meets at Ayres Home at Chilton

Hilbert—The Dorcas Guild met at the home of Mrs. J. M. Ayres at Chilton on Tuesday afternoon. A luncheon was served after the meeting. Mrs. Percy Kurtz will be hostess to the guild on Tuesday, May 18.

Mr. and Mrs. Anton Dohr visited their daughter Mrs. Armin Herne Monday evening. Mrs. Herne is a patient at St. Elizabeth hospital at Appleton.

Divine services will be conducted at the village hall Sunday evening by the Rev. J. M. Ayres of Chilton.

High School Music Groups Will Give Public Concert

New London—A public concert will be given by the New London High school music groups at the Washington school auditorium Tuesday evening, May 18. It was announced this week by M. S. Zahrt, music director. The concert will act as a preliminary to the district music festival at West DePere on May 22 in which the same groups will enter competition.

Special attractions on the program will be the appearance of the first place winners in the Class A and B solo and ensemble contests which were held here in competition with nearly 1,000 other students recently. Participating in the concert will be the band of 52 members, the orchestra of 31 members and a mixed chorus of 37 voices. The same groups will be represented at the district music festival by 78 high school students.

In Class B
The band is the most highly developed unit of the school music groups and though rated in Class C according to standard classification, will compete in Class B at the district festival. They will play Class A music. Judges at the Stevens Point event which the band attended recently commended the group for its fine appearance and in particular for its good tone quality and intonations.

Bands are rated according to the length of time each member has been receiving instruction in music and the number of rehearsals during the school year. New London at the festival will compete with bands from Algoma, East DePere, Luxemburg, Kewaunee, and Sturgeon Bay. While the instrumentation of the orchestra is complete and fairly well balanced, according to Mr. Zahrt, this will be the first time the New London unit has entered competition. With only two rehearsals per

week the orchestra is rated in Class D and will compete in that class at the festival.

Another first appearance is that of the mixed chorus which was organized about two months ago. The vocal group will be accompanied on the piano and will enter Class C competition in the DePere contests. Vocal work is classified according to the number of rehearsals and the size of the school.

New London Personals

New London—Mrs. Niel McBeth and daughter of Plymouth, Wis., is visiting this week with her mother, Mrs. George Thomas.

Clarence Longrie, Buffalo, N. Y., is spending this week with his parents, Mr. and Mrs. Frank Longrie. Clarence left New London more than 10 years ago and is now employed as truck driver for Swift and company at Buffalo.

Mrs. A. R. Margraff is spending a week with her daughter, Mrs. J. C. Zichm, at Berlin, Wis.

Wayne, 8-year-old son of Mr. and Mrs. Hugo Toltzman, 316 Shawano street, fractured his left elbow while playing in the yard Monday night.

Mrs. Guy Kinsman, Fremont, was admitted to Community hospital yesterday.

FOUR PAY FINES

New London—James Mullen, Appleton, paid a fine of \$25 and costs for reckless driving and his companions, Richard Mullen and Edward Hildebrandt, Appleton, and Bernard Popp, Neenah, paid fines of \$1 and costs for disorderly conduct when they were arraigned before Police Justice F. A. Archibald Monday afternoon. The young men were arrested by New London police on S. Pearl street late Sunday afternoon.

Rohloff Funeral Rites Held at Clintonville

Clintonville—Funeral services for Mrs. Ferdinand Rohloff, 74, were conducted Tuesday afternoon 16 St. Martin Lutheran church by the Rev. W. O. Speckhard. Burial was made in Graceland cemetery and bearers were six nephews: Matt Ladwig, Fred Koepke, Fred Schultz, Louis, Emil and Albert Habeck.

Born in Germany, June 25, 1863, the deceased came to America, at the age of seven with her parents, Mr. and Mrs. Ferdinand Habeck, who settled on a farm in the town of Pella. She was married at Pella to Ferdinand Rohloff on Jan. 28, 1881, after which they lived for a time on a farm and later moved to New London and Wittenberg. About 35 years ago, Mr. and Mrs. Rohloff moved to this city, where his death occurred in October, 1929. Mrs. Rohloff had been ill since Easter, when she went to the home of her daughter, Mrs. Ben Mosling, Oshkosh. Her death occurred there Saturday morning, after which the body was brought to the Eberhardt Funeral Home in Clintonville.

Survivors are one daughter, Mrs. Ben Mosling of Oshkosh, one son, Ervin Rohloff of Green Bay; nine grandchildren, one great-grandchild; one sister, Mrs. Fred Koepke of Marion; two brothers, William and Robert Habeck of Shawano.

Margaret Johnson Is Injured in Accident

Waupaca—Margaret Johnson, 7, daughter of Pension Administrator and Mrs. Hugh C. Johnson, Sheridan, while going to school Tuesday afternoon, was struck by an automobile occupied by two women from Idaho. Knocked down by the fender of the car which tore off her shoes and hat, she suffered a broken collar bone and was badly shaken and bruised.

BORAH AND THE "GLORIES"
OF FASCISM

When we see men with dependable thinking processes like Senator Borah warn the nation that an "insidious, subtle effort" is under way to implant fascism firmly in this country, it is time to take note of what is going on about us and to observe trends and tendencies with the straight eye of one who wants to know the truth and not merely advance some particular cause by wild or reckless statement.

If the senator is correct in his declaration, and we are sure he would not make such a solemn charge unless he had an abundance of evidence to substantiate his statement, it is not unlikely that the millions of Americans who travel abroad must bear some responsibility in the stories they furnish upon their return for the popularity of fascism at many points.

Yet the senator must remember that the American people, despite all the passionate propaganda loosened upon them, are generally as cool in their political judgments and as canny and shrewd as David Harum in buying a horse whatever the wonderful stories about the horse's fitness rained upon him by the trader.

Why not face the unquestioned truth? Fascism has demonstrated and delivered splendid improvements. Can not Americans absorb this fact without forgetting to look on the other side of the plank for the worms? Perhaps an example is in order.

When Mussolini took over Italy there could be found no country in the world with so filthy a metropolis as Naples. Beggars dotted its streets. And sores dotted the beggars. Swine were important street cleaners. Spaghetti hung out over the thoroughfares absorbing the dust. Life was everywhere in danger. Fascism has made Naples into an attractive city. The filth is gone. The beggars are at work. Their sores have been treated. The swine would starve if depending on the streets for food. There is no unemployment. There is work, order, safety and serenity.

But if democracy produced for Italy the Naples that was and fascism produced the Naples that is, nothing further has been demonstrated than that the Italian did not thrive on democracy.

Now turn over the plank.

Get off the boat at Naples and admire the new and extensive piers and customs houses. Admire, too, the guides who are only permitted to solicit the tourist when they have passed examinations and shown accomplishments in foreign languages and an understanding of history and the arts. Go with such a guide. And after tiring of craning the neck at the ruins of past centuries sit down at a sidewalk cafe and examine into the convictions of the people. When you touch upon political subjects the guide becomes strangely crablike. He looks carefully to the right and as carefully to the left. Yes, he is a fascist himself. He couldn't get his job unless he were. But he has opinions even though he dare not speak them. If he may be induced finally to talk you will observe that there are things of the spirit that are as important sometimes to men as things of a seemingly more substantial nature. The guide has no real liberty as we know it. He can neither express his thoughts nor read the thoughts of others. He looks constantly for foreign papers, because with the ability to read foreign languages, he can learn from them what is going on in the world.

He craves the truth just as a child craves food. He hates the regime that denies him this liberty because it makes perpetual and arbitrary classes, the rulers and the ruled, and he feels the inferiority forced upon him.

Likewise it may be remembered several hundred thousand men sailed out of Naples to Ethiopia recently bent on murder and pillage and not one of whom had a word to say about the right or justice of the program but all of whom had the alternative of obeying or being shot.

The mistake the critic makes of foreign governments is to assume that because they are not entirely parallel with our own they are all wrong. Of course they have certain virtues or they could not endure. It may even be said that they have sufficient virtues to be and remain the sort of government for a particular people. But an American who

could look upon fascism as necessary or desirable for this land because of its accomplishments elsewhere is wholly without vision or imagination because such a system would become just as intolerable in time as the Redcoats of Revolutionary days.

We insist, despite Senator Borah's warnings, that there is no danger of fascism in America except from one point of the compass. It might be induced by the growth and extension of communism, because, in a choice between the two the intelligence of America would take fascism every day in the week.

In his discussion Senator Borah aptly declared:

"Both are enemies of every vital liberty and every right and privilege of the average man or woman. Both reduce the average citizen to a state of political and economic serfdom."

Fascism is not a voluntary form of government. It is the antidote against a deadly poison.

THE REVOLUTION SHAKES UP THE
SPANISH PRISONER

This is a dangerous time for the people. Frauds of every conceivable nature are springing up almost on every side.

The appearance of prosperity is a call to arms for the crooks. When things go well in the world people become easy, soft and credulous.

Fake stocks, fake bonds, fake investments of every sort, are ground out by the gentlemen of velvet hands and perfumed kerchiefs for the gullible who work and sweat and save—and invest very unwisely.

Even the Spanish Prisoner hoax has changed its habitat and become streamlined so that nothing of the modern age would be lacking when the sucker is parted from his pelf.

The Spanish Prisoner has moved to Tallin up in Estonia. One of Franco's bombs must have shaken the prison off its foundations else the Spanish Prisoner who has been there nearly 200 years couldn't have escaped. But he is out and there is no doubt about it.

Americans are receiving letters to the effect that there is property of 100 million kronor up in Estonia, the ownership of which they are probably entitled because their name is similar to that of a former owner. If they will but slip a \$10 bill in at the post office, have it transferred into Estonia exchange and sent it out to that republic on the Baltic all will be well and they will be multi-millionaires. It is true, too, that there is considerable similarity between the Tallin estate and that of Sir Francis Drake, toward which Wisconsin residents paid many thousands in order to help liquidate all that valuable property right in the heart of London.

Sending the miscreants to jail and publicizing widely the nature of the fraud and its almost ludicrous aspects is not sufficient in that there is a new crop of suckers gathering every spring who have difficulty getting their money on the counter only because the old bunch who were flim-flammed are back again with the conviction that the new find is the clear McCoy.

Regretfully must it be admitted that many people preserve their youth by never growing up. For this sort of business must be lucrative. Crooks seldom stay for long watching an empty rat hole.

PEOPLE GET "WHAT IS COMING
TO THEM"

Leading sociologists, such as the Lynds with their famous survey of "Middletown," are now asserting that the American people have not changed their opinions in any great respect in spite of the President, his elegantly molded language or his large entourage of Hopkins, Tugwells, and the like who were going to roll up their sleeves, "and make America over."

The Lynds claim that the American people still believe these remarkable things:

"That, ordinarily, any man willing to work can get a job, and that a man really gets what is coming to him in the United States, and"

"That the American democratic form of government is the final and ideal form of government."

We note that practically all skilled labor in this country is working as many hours as it is willing to work and, we believe, at highly satisfactory wages.

We likewise note that many unskilled workers are without employment.

We should add that for a period of nearly eight years there was a great opportunity for unskilled workers to become skilled. Vocational schools were running ceaselessly. University extensions were rapping at people's doors. These willing and desirous of improving themselves were learning skilled trades by observation, study and practice.

If the Lynds are not right in their conclusions it will be all the harder for America. But they are right.

We have the final and ideal form of government because it does procure for a man "what is coming to him."

But a great many are disappointed. They are the ones who inadvisedly constructed the language coming from Washington as conveying the thought that they would somehow be miraculously taken care of even if they didn't close their windows when the blizzards blew.

Beef cattle raisers should select a type smooth in conformation and blocky in build, advises P. W. Bell, animal husbandry expert at Kansas State College.

Seed corn is germinating poorly this year, according to tests made by the Kansas State seed laboratory.

SPRING POEMS

The crop of Spring poems will very soon dwindle. No more will we sing of the dew on the rose. No more will we rave about lambskins that gambol.

For we will be using plain, everyday prose. O, ring-time and Spring-time and birds on the wing. And dream-world and dew-pearled have earned their repose.

When sun-burn is stabbing and skeeters are jabbing. Our thoughts and our writings both run into prose. So, Jonah, rest easy, these verses that bore you will soon, with the Spring, be a thing of the past.

For writing spring poems is much like a fever. It must run its course, but, thanks be, it don't last.

SODBUSTINGS

Jonah: Pumpkin Center

I listened to one of these brown thrushes talking up in a tree this morning. He talked for an hour and never said the same thing twice. Talked in four or five different languages but I couldn't understand him. Must have been talking in one of these here, dead languages.

Reminds me of way back when we were fighting Germany and I started a little war of my own. I was in the wrong crowd and said I talked English to God, French to my wife and German to my dog. I went home slightly disfigured.

I was ploughing down quack grass yesterday and ploughed up a piece of petrified wood. Sent it to Republican headquarters to make a farm plank out of for the next campaign.

(Ed. Note: did you wrap it with a little dynamite? The Republicans need a bit of shaking up.)

And what I nearly forgot to say—These here United States had their Harding, Louisiana had her Long, and Indiana her McCray, and Wisconsin—there she stands. You know—"the La-Follette Regime."

—EZEKIEL SODBUSTER

This sounds like mutiny, and maybe I'll report you to Democratic headquarters, Zeke. The LaF. regime has been ever so palmy waisy with the royalty in Washington.

As a native Hoosier, I resent your reminder of Warren McCray, particularly with so recent an example as Paul McNutt, who got results like those of Huey Long, but who did it ever so smoothly and gracefully.

Ever since the car from Minnesota exceeded the speed limit to pass me yesterday and then tore right through an arterial sign, I've been in the dumps. I never could get away with anything like that.

A Verse for Today

By Anne Campbell

TO A FRIEND IN THE HOSPITAL

Because you thought of me today
And spoke my name,
My cares spread wings and flew away.
And sunshine came.

Because our friendship is too bright
For time to dull,
Hope burns a candle and my night
Is beautiful.

Because of good deeds you have done
A lifetime through,
God will not take the shining sun
Away from you;

But heeding every anxious prayer,
With his unflinching love and care,
Your health once more.

AMERICAN NERVOUSNESS

CALLS FOR AN ANTIDOTE

The American way of living involves much dissembling of natural feelings and impulses and a growing tendency to substitute excitement for recreation, thrill for diversion, boredom and ennui for relaxation, vice for pleasure, business for work, sport for play and restlessness yearning for contentment.

Instead of playing games Americans prefer to watch others play. This is all right for honest working folk, that is, for people who work with their muscles or get exercise regularly in one way or another. It is all wrong for sedentary folk, that is, for people who live by their wits or as parasites. It is wrong because the spectator or fan cannot possibly use in frantic screaming, stamping of feet, applause, booing and other hysterical manifestations the large amount of energy—the only kind of energy—physiology recognizes as released by the excitement of the game.

What happens is that the vital machinery is racked. What happens when you habitually race your automobile engine? What happens when the belt slips off from a fly-wheel?

Examination of 25 members of a university football team after the final and most "important" game of the season—important, of course to those who exploit the sport—showed that twelve had sugar in the urine, and five of these had not played in the game but had been all keyed up waiting on the sidelines for the tin god coach to send them in there.

Examination of nine medical students, who, like the 25 football players, were all normally sugar-free, following a hard examination showed that four had sugar in the urine. Only one student in the same group, examined after an easy examination, had sugar in the urine. If tests could be made of all spectators before and after a game, probably a larger proportion of them would show the signs of damage to the vital machinery. It is in the grandstand or the bleachers, not on the playing field, that the gravest casualties of baseball, boxing, football and other popular sports occur.

At the same time the spilling of blood sugar occurs in emotional stress there is generally a great speeding up of the heart action which becomes both faster and more forcible and a sharp rise in blood pressure. These and other well recognized manifestations are due to the increased secretion of adrenin by the adrenal glands stimulated by emotion. Adrenin is fairly called an "antidote for muscular fatigue"—a vital essential where one's natural reaction is to fight or run away; but mad medicine where one substitutes imagination.

The automatic or autonomic outpouring of adrenin by the adrenal glands under emotional influence is the natural, physiologic way to prepare for flight or fight. If fight or flight is not feasible in the circumstances and no adequate use is made of the power or energy thus liberated, the human machine is bound to be damaged more or less, and whatever part of it is damaged, it is human nature, at least. Yankee human nature, to call the result "nervous" trouble, tho' it would be more accurate and truthfully to call it brain weakness.

QUESTIONS AND ANSWERS

Is it useful for the entire spine to sleep on the back? Have Been Told sleeping on back doesn't rest spine. (M. R.)

Answer—Spine is rested as much

sleeping on back as it is sleeping on side or on belly. So is every other part of the body. Sleep as you like.

Goat's Milk

Please tell me if goat's milk is better for babies than cow's milk? You say milk from cows on pastures produces more vitamins than milk from stall fed cows. Is it the same with goat's milk? (Mrs. W.)

Answer—Yes, goat's milk is as good for babies as cow's milk. Sometimes babies thrive on goat's milk when they do not tolerate cow's milk. Fresh feed or pasture produces milk richer in vitamins, both cow's and goat's milk.

Perforated Ear Drum
Son rejected on examination for army because they found he had perforated ear drum. Please tell me what causes that. (Mrs. J. B.)

Answer—Usually it occurs when an abscess or gathering in ear ruptures thru the drum. Sometimes it is caused by injury. Nothing can be done about it.

Your Birthday

"TAURUS"

If May 13 is your birthday, the best hours for you on this date are from 9:15 to 11:15 a. m., from 1:15 to 3:15 p. m. and from 7:15 to 9:15 p. m. The danger periods are from 7:15 to 9:15 a. m., from 5:15 to 7:15 p. m. and from 9:15 to 11:15 p. m.

There may be a temptation this day to exaggerate. Do not yield to it. If you would keep out of trouble, due to prevailing influences the diagnosis or treatment of individual cases cannot be considered. Address: Dr. William Brady, 265 El Camino, South, Beverly Hills, Calif.

You will have to be careful that you do not get the wrong idea about a friend, for hasty conclusions may be misleading. It might be kind not to judge anyone's action without trying to find out what might be back of it because the circumstances may make it justifiable. You probably will find yourself favored by Dame Good Fortune in some very gratifying manner very soon. Married and engaged couples, as well as those with good matrimonial prospects, must see only the bright side of things this day, so that happiness will reign.

If a woman and May 13 is your birthday, you ought to be a good judge of human nature. You probably can adjust yourself easily to any environment. You perhaps are inclined to be a bit excitable, and may be decidedly critical. You possibly possess a vast store of natural humor, and can be very witty. You should have excellent taste, and a love for beautiful clothes. The quicker you learn you have to pay a fair price for anything that is good whether it is legal or medical advice, shoes, clothing or an investment security, the quicker you will get your money's worth. Do not let price warp your judgment or blind your power of discernment. As a journalist, musician, singer or sales-lady your promotion may be rapid. There are apparently no logical reasons for your not marrying happily. The child born on May 13, when it reaches its teens, usually devel-

A Bystander
In Washington

BY PRESTON GROVER

Washington—it takes half an hour to learn the history of the national capitol building and what you lack in facts and atmosphere you make up in exercise while getting it.

White-haired men and sleek young girls act as guides but there is nothing doddering or languorous in the way they trot tourist parties around the building.

Small parties get the best treatment, for the tail enders of large parties usually just match up with the guide at the time he is closing his lecture on the half acre painting of the storming of Chapultepec with the statement that the picture cost \$79,432.45.

Angels

The lecture starts on the main floor with the guide pointing skyward to the dome where a famous Italian artist' whose name we couldn't catch painted George Washington surrounded by 13 decidedly bulbous ladies clad in nothing to speak of beyond a bit of filmy drapery.

Now the guide is digesting the frieze circling the base of the dome, where are depicted 450 years of history, ending with the discovery of gold in California in 1849. It ends in a dark splotch of blank plaster which will be filled with a World War scene or something else as soon as present disputes end.

In the center of the floor is a disc of white marble over which the bodies of all Presidents lie in state if they die in office. Similar honors are accorded national heroes, such as Admiral Dewey, and the guide thought General Pershing and perhaps Lindbergh would spend some time there.

The big chamber under the dome and the hallways leading to house and senate wings are studded with statues selected by the state but their guesses as to lasting national prominence seem not so good since most are forgotten already.

Mad Bath

At one point tourists are brought to an abrupt halt with an announcement that: "Up these stairs came the British."

Near the spot where once rested the crypt of Martha Washington is a huge square block of white marble out of which emerge the heads of three historic women, somewhat as if they were taking a mudbath.

We once stepped from an elevator in time to hear a guide say: "These arches were designed by Archimedes," which seems to be stretching things a bit, as this noted geometrician was killed by Roman soldiers some few years before the capitol was built.

FRENCH NAVY TESTS

Cherbourg.—Experiments designed to show that fires caused by incendiary bombs cannot be extinguished by any known method have been carried out at the naval arsenal here.

Protection against fire was accorded by coverings of cement, sand, plaster, milk of lime, the experiments revealed. All efforts of firemen to put out the conflagration of a woodshed hit by incendiary bombs were in vain.

But incendiary bombs generating a heat of 1,800 degrees Fahrenheit had no effect when dropped on a plank covered with sand. Nor did four thermite bombs dropped on a shed with a covering of plaster and milk of lime on its roof.

Lists Changes Taking Place In Recent Years Among Chinese

THE many changes which have taken place in Chinese homes and among Chinese women in recent years were discussed by Mrs. T. C. McConnell, Madison a former Appleton resident who spent a number of years in China, at the Chinese luncheon sponsored by the council of Women's Missionary society of Memorial Presbyterian church Tuesday afternoon at the home of Mrs. F. W. Schneider, 738 E. Alton street.

Before the revolution, said Mrs. McConnell, Chinese women could not go outside of their homes except in sedan chairs, and then only to visit relatives or attend a feast, but nowadays women of China are engaging in every kind of business, even acting as policemen and aviators. Formerly Chinese women were segregated in one part of the house and not allowed to mingle with the men, not even at meals, but today there are coeducational schools and colleges in China, Mrs. McConnell stated.

Adopt Foreign Ways
Chinese women have adopted foreign clothes, haircuts and make-up and the problem is becoming not one of lack of progress but one of not being able to determine what is worthwhile among the foreign customs and influences.

The speaker told how she first went to China in 1915, and pointed out the many changes which took place between that time and the time of her leaving in 1927. She described the city of Foochow where she lived, explaining that it is the garden spot of China, the natives harvesting four crops a year as there is no winter there. There is a large river population in Foochow, she said, describing a typical landing after making the trip by boat to the city.

Plan Picnic For Children At Park Here

No Automobiles
Mrs. McConnell pointed out that when she first went to Foochow there were no automobiles, no roads to speak of and very few motor launches on the river, but today there are motor roads on both sides of the river and numerous launches dart about the river, while motor cars are used to a great extent. Airplanes are numerous, she declared, stating that they are used more for passenger service than in the United States as there is only one railroad.

She spoke of the hospitality of the people of China and mentioned some of the familiar scenes in a typical Chinese city such as the fish markets, silk shops, curio, pottery and lacquer shops. The making of idol paper used in ancestor and idol worship both in the temples and in homes was an industry in which many Chinese women were employed, she said, but as the women became Christianized they dropped out of the industry and began working in lace and embroidery factories which were established to give them work.

Have High Walls
Every Chinese home has a high wall around it in order to keep out robbers and prowlers, said the speaker, but in spite of that there is no privacy in China for one's servants tell everything one does, eats and wears, as these are things of interest to everyone. She told of an incident of taking a colored minister to a silk shop and attracting such a crowd that the governor's militia had to be called to keep the mob away, so interested were the people in seeing this strange-looking person.

A Chinese home is entered through a court in which are seated coolies smoking and talking, the speaker said. The front door is painted either red or blue, red if there is or has been a wedding recently or if things are very prosperous in that home, blue if there has been a funeral recently. The kitchen has an earthen floor, is usually very untidy and there is always a grinning kitchen god propped up in a prominent place with his mouth plastered with honey so that he can say only nice things about the family. However, Mrs. McConnell pointed out that the Y. W. C. A. workers are able to instill some ideas of cleanliness into the women in recent years and kitchens in China are gradually becoming modernized and sanitary.

A feature of the entertainment yesterday was a treasure hunt, prizes for which were won by Mrs. George Ballard and Mrs. R. L. Swanson. About 35 women attended the luncheon and program.

Member of Control Board To Address Womans Club

THE annual luncheon of Appleton Womans club will take place at 1 o'clock Thursday afternoon in the Crystal room of Conway hotel. An invitation has been extended to the county officers interested in the workings of the state board of control, as Mrs. Katherine Sullivan, Kaukauna, a member of the board, will be the speaker. Her subject will be "The Board of Control and Some of Its Problems."

Mrs. George Krahn, president of the eighth district federation, is expected to be a guest, and invitations have been extended to the Seymour Womans club and Kaukauna Womans club, as well as to clergymen and others interested in crime control. Any woman, whether she is a member of the club or not, is welcome to attend.

Mrs. Sullivan obtained her experience in social service work in Hull House, Chicago, and on the lower East Side of New York and has been on the state board of control for the last four years. Among her duties she attends the parole board meetings and visits every penal and charitable institution in Wisconsin at least once a month. These include prisons, house of correction, reformatory, institutions for the feeble-minded, institutions for the blind, boys' industrial school school for deaf, prison camps and women's prisons. She has been engaged in this type of work for nearly 25 years.

The program is being presented under the direction of the department of law observance. Mrs. Charles C. Hervey who is chairman of the department in the eighth district of Wisconsin Federation of Women's clubs, will introduce the speaker.

List Winners in Play at Weekly Contract Tourney

Winners Tuesday night in the contract bridge tournament session held at the Conway hotel were Mr. and Mrs. H. H. Haldeman, first for north and south with 105 match points, and David Smith and E. J. Van Vonderen, Waupaca, first for east and west with 83 match points.

Second and third place, north and south, went to Mr. and Mrs. Thomas Long with 79 match points and Mr. and Mrs. H. A. DeBauer with 77 match points. Mrs. Harold Zaag, New London, and Mrs. Amy E. Clemens were second for east and west with 81, and two Racine men, Arthur Grau and A. W. Von Stronstorf, were third with 79 match points.

Another session in the tournament will be held next Tuesday night at the hotel.

Mr. and Mrs. Duncan Robertson, Weyauwega, left yesterday morning for California, where they will visit their son-in-law and daughter. Mr. and Mrs. Joseph Wedgwood, Jr., in Los Angeles. Mrs. Wedgwood visited here recently with her parents and also with her husband's parents, Mr. and Mrs. Joseph Wedgwood, Sr., 114 S. Durkee street.

Pastor Describes Thrill Of Fishing Off Cape Cod In Address Before C. Y. W.

WEIR and seine fishing off Cape Cod were described vividly in a series of stories told by the Rev. John B. Hanna, pastor of First Congregational church, at the meeting of C. Y. W. Tuesday evening at the church. The thrill of participating in the landing of about 75 barrels of mackerel at one time, of seeing a huge tuna or "horse mackerel" caught in the net with the smaller fish and finally landed in the boat, and of accompanying a fishing expedition at night with only the shimmer of scales just under the surface of the water to show where the fish are was imparted to the audience as Mr. Hanna described the various steps and processes involved.

When a tuna fish gets into the weir and the men try to pull the catch into the boat, Mr. Hanna explained, the excitement really begins, for some of the huge fish weigh 750 pounds or more and one of them could knock the side out of the boat with a flip of the tail if he were hauled in before he was killed. He must be caught with large hooks or gaffs, brought up to the side of the boat and killed with a pick before he can be hauled into the boat.

Describes Seining

Seining was described by the speaker who told of going out on a fishing boat with a crew of men, one of whom acts as lookout. Seeing a ruffled stretch of water, the lookout knows that it is a school of mackerel and gives the signal, whereupon a dory put out and drops one end of the huge net in the water at one side of the school, then circles around in front of them and tried to close the gap before the fish can escape. The race to close the gap is an exciting one, said Mr. Hanna, and sometimes the fish win.

No lights are used on the boat in night fishing, the speaker explained, but the lookout is able to spot the fish for they give a sort of phosphorescent glow to the water just above them. When a school of fish is sighted, the same procedure is followed in circling them with the seine, he said.

Dangerous Fish

Sword fish are dangerous and must be captured by using a harpoon, said the Rev. Mr. Hanna, showing the snout of a sword fish which weighed 250 or 300 pounds and which was caught by a sea captain of his acquaintance. Dories which hunt sword fish now are obliged to have ironclad bows for some of the large fish could push a hole through the boat with their snouts, he explained.

The speaker showed shells of snails, mussels, sea clams and quahogs which are to be found in quantities around Cape Cod, and closed by passing around a number of photographs of Provincetown showing the cottages, the Congregational church of which he is summer pastor, and the wharves and harbors with the sailing vessels.

He brought a bit of sea "atmosphere" into the gathering when he showed one of the dried, salt fish which are an important item of food among the fishermen in Provincetown and are always taken on a fishing trip for lunch.

Tells History

Mr. Hanna introduced his talk by giving something of the geological history of Provincetown which has been affected by three things, the old continental divide, glaciers and the process of shifting the shore-line. He reviewed briefly the church history of the town from the founding of the Congregational church in 1714 to the present time when there is, in addition to the Congregational church, two Methodist, a Universalist and a Roman Catholic church.

A dinner preceded Mr. Hanna's talk last evening. Miss Mary Voecks played two flute solos accompanied by Mrs. Mildred Boettcher.

Scores Supporters Of Spanish Loyalists

(Post-Crescent Madison Bureau) Madison — University of Wisconsin deans and professors who are tributes to the cause of the Spanish Loyalists while on their campus liberal students parade with signs demanding "strike for peace" were castigated in the Wisconsin senate Wednesday by Senator John E. Cashman, (P), Denmark.

Cashman's remarks were a part of the hour and a half of oratory which preceded a vote on the White military training bill, which proposed to establish a compulsory system of military training for every male freshman and sophomore student at the university. After almost every member present had spoken on the bill, the bill was defeated by a heavy vote, as it has been several times in past sessions.

John Kohl Estate Is

Estimated at \$38,000

The will of John Kohl, Appleton, disposing of an estate of approximately \$38,000 in personal property, has been admitted for probate in the Outagamie county court of Judge F. W. Heinemann.

Three sons, Michael, Joseph and Charles, and three daughters, Magdalen Kohl, Louise Kohl Heideman and Emma Kohl Wyatt, each will receive \$3,000 and each of six grandchildren, Raymond, Fred, Harold, George and Marion Schultz and Gertrude Schultz VanderHeiden will receive \$500 each. The remainder of the estate will be divided into seven parts. The six sons and daughters each will receive one share and the grandchildren mentioned in the preceding provisions will divide the seventh share.

Troop 12 Boy Scouts to

Hold Steak Fry in Park

Plans for a father and son steak fry to be held at Erb park next Tuesday evening were completed by Boy Scouts of Troop 12, Roosevelt Junior High school at a meeting last night. Plans for promoting attendance and prompt payment of dues were discussed and a camp promotion talk was given by Robert Schneider, William Heckrodt of Troop 3, Menasha. A baseball game concluded the meeting.

Next Tuesday Mrs. Henry Strutz will entertain the club at a birthday party at her home on N. Lawe street.

Assembly Votes Censure Of Milwaukee Officials

Madison — (P) — The assembly adopted on a voice vote today a resolution censuring Milwaukee officials, particularly members of the city council, for lobbying activities. The author, Assemblyman Martin Franzkowiak (D), Milwaukee, contended certain city officials entertained members of the legislature apparently with city money, without authorization from the council. He did not identify the officials.

"Lobbying at the 1935 session was bad enough and they're back here again this year," Franzkowiak told an assembly committee.

He charged the officials made no report on such expenditures at the 1935 session.

Committee Will Study Proposed Change in Act

John H. Neller, president of the Appleton Chamber of Commerce, will appoint a committee within the next few days to study a recommendation of a committee of the United States Chamber of Commerce that the long-and-short-haul clause should be eliminated from the Interstate Commerce act, and that a provision be enacted placing burden of proof upon the carrier to justify long and short haul rates, fares and charges against claims of violation of other applicable provisions of the act.

Chambers of commerce throughout the country will cast their ballots for or against the clause within the next few weeks.

State Commander to Address Legion Group

Chetek, Wis. — (P) — Clarence Truman, Colfax, 14th district commander of the American Legion, said today Henry Oakley, Oscoda, would be the principal speaker at the opening sessions of a convention here June 5 and 6. Oakley is state commander.

The program will include schools for adjutants and service officers, conducted by state officers of the legion.

Miss Leona Beyer Becomes Bride of Carlton Siebert

Miss Leona Beyer, daughter of Mr. and Mrs. Albert Beyer, route 3, Appleton, and Carlton Siebert, son of Mr. and Mrs. Charles Siebert, Seymour, were married at 2:30 this afternoon in St. John's Lutheran church, town of Center. Mr. and Mrs. Erwin Feistel, Appleton, brother-in-law and sister of the bride, and Miss Arline Groat and Clark Siebert, Seymour, cousins of the bridegroom, were the attendants.

About 40 guests will be served at the wedding dinner at the home of the bride's parents this evening. The couple will live on a farm on route 4, Seymour.

MARRIAGE LICENSES

Applications for marriage licenses have been made at the office of John E. Hantschel, county clerk, by the following couples: Conrad B. Frank, Milwaukee, and Germaine N. Rammer, Appleton; Harold M. Vandenberg, route 2, Kaukauna, and Mae Van Hoot, route 1, Kaukauna; Frank Sperka and Maria Spruyt, Kaukauna.

APPLETON VISITORS

One of the reasons for Mrs. Charles W. Spalding's visit in Appleton is her only grandson, Charles Warren Spalding, who is shown with her in the picture above. He celebrated his second birthday anniversary last month. Mrs. Spalding, whose home is in Watertown, Mass., is a guest at the home of her son and daughter-in-law, Mr. and Mrs. John E. Spalding, 608 E. North street. She is the wife of the assistant manager of the Boston Symphony orchestra.

Another visitor in Appleton this week is Miss Lucille Taylor, right, who has come from Saco, Maine, to be a guest at the home of her brother-in-law and sister, Dr. and Mrs. Lawrence Towle, 845 E. Washington street. Both Miss Taylor and Mrs. Spalding are being extensively entertained, especially in the Lawrence college faculty circle, during their stay here. (Post-Crescent Photos)

Hollywood News And Gossip

BY ROBBIN COONS
Hollywood—The previews we're seeing now invite one and all to have a good cry.

Hollywood cried most at the specter of itself, projected in color for the first time in "A Star Is Born." It laughed a great deal, too, but mostly it cried. The thing touched Hollywood's heart because it is Hollywood and because it aroused those vague feelings of discomfort one feels at a "truth party."

To have made it true to life, the leads should have been reversed. Janet Gaynor plays the unknown who becomes the rising film star, and Frederic March plays the big star who slips from the peak. Truthfully, March is so much in demand in pictures that he wouldn't have time to drown his sorrows in drink if he wanted to. And Janet, not that she drowns her sorrows as March did in the picture, is the one who has been slipping.

This picture should serve as a brake, for she's never given a better performance, and color photography reveals a new and captivating personality. As for March, he'll be busier than ever because he gives the portrait of a fallen star who expect from a star who hasn't fallen.

Hollywood commented on the fact that color, while magnificent, is less important in this film than story. Warner Baxter, currently making his first color film, "Vogues of 1938," saw it and joined the ranks of those predicting the end of black-and-white within a year.

William Wellman's lusty humor is evidenced in his direction, and his treatment of this crazy colony is marked with satire, occasional bitterness, and hit-deep thrusts. Unlike many previous Hollywood films, this one carried a sure-fire Cinderella yarn and intriguing glimpses of "inside" Hollywood, together with comedy, to offset the satire which somehow doomed the others to box-office indifference. The tragic ending is off key, but it gave Hollywood a good cry and might do the same for you.

Some cried and some didn't at "Make Way for Tomorrow," a telling study of the eternal breach between youth and age. This film (based on Josephine Lawrence's "The Years Are So Long") carries all the tear-jerking thunder of such silent films as "Over the Hill" and "The Old Nest," but strikes deeper.

Issue Social Security Numbers at Post Office

Because the first half-year summary report of employers must be filed with the social security board by July 1, many requests for employee account numbers have been received recently by Stephen D. Balliet, Appleton postmaster. About 30 account numbers were re-recorded yesterday.

The social security board announced today that it desires to issue account numbers to any employees who are covered under the state unemployment compensation law, even though these employees are exempted from social security payments. Account numbers also will be issued to those persons over 65 years of age who voluntarily apply for the number.

Holy Name Members to Attend Diocesan Rally

Kimberly — J. T. Doerflinger and T. A. Locksmith, president and vice president respectively of the Green Bay Diocesan Holy Name society, will attend a meeting at 7 o'clock Wednesday night at St. Patrick school, Menasha, to consider final plans for the diocesan Holy Name society rally Sunday at Neenah and Menasha. Transportation for Kimberly Holy Name members who desire to attend the field mass at 10 o'clock Sunday morning and the parade at 2 o'clock in the afternoon is planned by the local society. The first Holy Name society in the diocese was organized at Kimberly in 1908.

Beer Sale Shows Great Increase in Wisconsin

Milwaukee — (P) — Sale of Wisconsin beer during the first four months of 1937 showed the greatest increase since repeal, the Wisconsin State Brewers' association announced today. The association placed production for the period at 1,112,596 barrels compared to 989,693 for a similar 1936 period.

Fire Prevention Plan Offered at Manitowoc

Manitowoc — (P) — The Manitowoc county board had under consideration today a plan which would provide county-wide fire protection service at a yearly estimated cost of \$6,000.

Under the plan, advanced by Fire Chief James Kupic, Manitowoc, and Chief Arthur Rahn, Two Rivers, the county would be divided into 22 zones. Each would be served by a volunteer fire department, paid \$200 a year for maintenance and a specified amount an hour while fighting fires.

Senate Backs Request For Data at Hearing

Madison — (P) — The senate adopted unanimously today a resolution by Senator John Cashman (P), Denmark, requesting officials of the department of agriculture and markets to divulge "certain information" to legislators at a hearing tomorrow night.

Cashman, frequent critic of the department, declined to disclose the subjects to be discussed at the meeting scheduled for 8 p. m. in the senate chamber.

The resolution specifically requested Commissioners Charles L. Hill and Fred Schultheiss and Harry Kluefer, head of the dairy and food division, to attend the hearing.

GEE, MOM, MAKE LOTS OF SANDWICHES FOR THE PICNIC! I'VE GOT THIS DATE NUT BREAD

OF COURSE, SPRY... IT'S MADE WITH SPRY AND GOOD FOR YOU

DATE NUT BREAD
Tender and fine-flavored

1 cup dates, pitted and cut
1 cup hot water, scalded
1 cup hot milk
1/2 cup sugar
1/2 cup butter, soft
1/2 cup brown sugar, firmly packed
1 egg, well beaten
1 teaspoon soda
1/2 cup cold water
1/2 cup Graham flour

Combine dates, water and hot water and mix thoroughly. Add brown sugar gradually and cream thoroughly. Take no time with triple-creamed Spry. Add beaten egg and mix well.

Add soda to date mixture and combine with creamed mixture. Blend as well. Add white flour and Graham flour and mix thoroughly. Pour batter into greased hot pan greased with Spry. Bake in moderate oven (350° F.) 30 to 40 minutes. (Now you'll like Date Nut Bread and how much it keeps when you make it with Spry.)

Here's a New Character- He's the Bridge Gargoyle

BY ELY CULBERTSON
(Copyright, 1937: By Ely Culbertson)

"Dear Mr. Culbertson: A familiar face at our local tournaments is that of a character known as the Gargoyle. From the humpbacked grimace he assumes upon finding a hostile honor lurking in ambush or the outstanding trump banked off-side. In spite of a regrettable fondness for light doubles and a tendency to clown, he is a shrewd card flipper especially on defense, and he didn't fail to 'fix me' properly on the following hand, which came up at one of our recent Thursday evening duplicates. I sat South and the Gargoyle, unhappily for me, was West.

East, dealer.
East-West vulnerable.

The bidding:

"The spade Jack came out and East's king went to my ace. I could see that six-odd depended on establishing a squeeze position and that in order to do so it would be necessary to give up a trick immediately to gain the proper timing. It seemed better tactics to lose this trick in hearts rather than clubs, so my first lead was the heart four. And now for a review of the Gargoyle's mental processes during the next few minutes, which he gladly furnished me gratis after the hand had been played.

"What's that palooka (he meant me, the dealer) up to? Is he hoping I hold the heart lady and won't go up? Up she goes! Well, what's that eight spot from partner? A signal or the card nearest his thumb? Let's see now. This has all the earmarks of an impending squeeze. South must have the heart and club aces, and certainly the queen and small spade. After those diamonds are run, I'll have to hold spades and partner will have to guard hearts. Good! Neither of us will be able to keep club! Well, I'd better take that club entry away from South, pronto! South can't have ace-jack of clubs, because then he'd have twelve tricks by clearing the club king. So, speaking of the club king, here he goes!

"An ace can be readily seen, the lead of the club king at this point effectively spiked my guns. If a spade had been returned, the fall of the eight from East's hand would have clearly indicated the proper play (to cash the heart ace before running off diamonds) and a heart return would have made this almost automatic. In either case, as anticipated by my disgustingly astute opponent, the double squeeze would have flowered in all its rare beauty at the eleventh trick. See the pretty picture below and join me in a gentle tear. Dummy's last diamond would have gouged a club from both defenders.

Stanley's Adventures in Africa

VIII—MORE ABOUT THE PYGMIES

Plantains, the banana-like fruit found in the tropics, did more than anything else to save Stanley's party from starving during their long, hard marches through the pygmy country in central Africa.

They lifted the chest.

Sometimes, on these marches, they had to cut their way through the most of plant life, using knives, spears and axes. Troops of monkeys swung themselves from tree to tree, and clattered from the limbs overhead. Sunbirds, gray parrots, white-collared eagles, and other birds screamed and called as the explorers made their way along.

One day a pygmy man was captured and brought to camp. He was about 21 years old, but measured just four feet in height. His skin was of copper color. On his head he wore a bunch of parrot feathers. Using sign language, he told the men who had captured him how to reach a place where they would find plenty of plantains.

On the evening of another day, five men were sent out to pick up a box containing ammunition. The box had been left a short distance away by natives who had grown tired of carrying it.

The five men walked toward the place where the box had been left when they heard the noise of many

persons talking. Looking ahead of them, they saw some pygmies who had gathered around the ammunition box. They were trying to lift it, but were not able to do so. All of them seemed to be trying to tell how to perform the trick.

At length certain of the little men came to the scene with a long pole, and passed it under the ropes around the box. This made it possible for them to lift and carry it. When they had gone only a few yards, one of Stanley's scouts raised his gun and fired into the air. The noise frightened the pygmies, so they dropped their load and ran away.

Here, in shortened form, are paragraphs Stanley wrote about pygmy customs:

"Their homes are low-roofed, and of oval shape. The doors are from two to three feet high. The huts in a village are placed in a circle, and at the center of the circle is the home of the chief and his family.

The pygmies live in the forests. They have a fine knowledge of woodcraft. They are of value to the larger natives because they quickly learn about the coming of strangers and send warnings over the whole region.

An weapons they use little bows and arrows, the tips of which are covered with poison. They also carry spears. With their poisoned weapons they kill elephants, buffaloes, and antelopes. They dig pits and cover them with sticks, as traps for large animals. They spread nuts and ripe plantains on the ground, and when the bait is eaten by monkeys and apes, a shed-like covering drops from above and imprisons them."

It's Season For Lovely Shoulders

BY ELAINE PIERCE

ALAS carried the world on his shoulders, but the modern woman's task is a comparatively simple one; she need only show a pair of beautiful shoulders to the world.

Evening fashions definitely call for beautiful shoulders. There's the romantic dropped-shoulder line; and the narrow ribbon bands that leave the shoulders almost entirely exposed.

Bathing suit season is not so far off now. Shoulders again. Backless tennis dresses, bathers, summer fashions, like evening fashions, reveal shoulders.

And even if you are wearing a man-tailored blouse and suit, covering every inch of beautiful shoulder isn't it a treat to know that "underneath it all," there is beauty waiting to be revealed when you and Fashion have the whim for it. Rub-a-Dub-Dub.

Here's a fairly complete shoulder treatment that you can start right now. Try it once or twice a week, for a few weeks. When you are ready for the open-season for shoulders, there'll be a pair of soft, silky, pink and white beauties to show the world.

You start with the usual rub-a-dub-dub. You might add a handful of eucalyptus to the tub. This helps to throw open the pores, penetrates, draws impurities to the surface. Now take your long-handled bath brush in hand, or your loofah sponge, or the hand-brush brush, whichever you feel will work best for you. Wield the soap suds (use a mild, bland soap) back and forth. Friction. Then rinse thoroughly. Blot dry with a Turkish towel. Then use a bath oil or a very light cream, massage back and shoulders with it and leave on for a half hour or so. Do not over-excess but leave a thin film on overnight. In the morning, remove any remaining cream and under the cold shower if you can stand it without shock, then a patting with ice skin tonic or rubbing alcohol.

Another night after the tubbing, take a handful of table salt, and while the skin is still moist, rub the salt over it. Then under the shower and rinse the salt away. You'll find your skin glowing with increased circulation.

An occasional Turkish bath is fine and while there you might have a body massage and the scotch hose for further stimulation of healthy circulation.

If you are donning a backless or shoulderless (well almost shoulderless) evening dress, use a make-up base, a cream or lotion to match your natural skin coloring. Such make-up bases are now made so they won't rub off. They do powder over it, with a long-handled powder puff or brush.

If you are exposing shoulders to the sun, do I have to warn you about protection in the form of cream or oil.

My complete new booklet "Medicine by Diet" (booklet 201) is yours for ten cents. It covers the subject thoroughly. Send for it, giving your name and full address to The Bell Library, c/o this newspaper, 247 West 43rd Street, New York, N. Y.

GOOD TASTE TODAY
BY EMILY POST

INSTEAD OF REQUESTING "NO GIFTS"—
Dear Mrs. Post: Recently some of my friends gave me a stork shower, and as this surprise party was given when I was visiting my mother and every one lives quite a distance from here, I would like to send little announcements of the baby's birth to them. But the thought occurs to me that perhaps these announcements will give these friends the feeling that they are expected to send another present. Of course I merely want to let them know because I'm sure they are interested. What do you suggest that I write on the announcements? "No gifts" in a way I feel that this presupposes quite a good deal.

Answer: Instead of asking that "no gifts" be sent you, I think it would be better to make your message one of thanks for each gift already received at the shower. For example: "He is very proud of the booties you gave him. Or 'He is trying hard to grow big enough to use your cereal dish' or any brief comment that is appreciative of the present each has given.

Dear Mrs. Post: Our daughter was married quite several weeks ago. She is now happily settled in her new home. She is very happy and contented. She is very grateful to you for the many gifts and favors you have given her. She is very proud of the many friends who have helped her in her new life. She is very grateful to you for the many gifts and favors you have given her. She is very proud of the many friends who have helped her in her new life.

When you are at a loss and can find no way out, confide in the teacher you like best, even if that is the teacher you had way back in the One A. Don't talk too much about yourself to other girls. Find the right grown-up person. And all the time, cultivate your mind and your body toward usefulness. The most popular person in society is the one that is most useful.

Mr. Post will give personal attention to inquiries from parents and school teachers on the time of the year. Write him in care of this newspaper enclosing a three-cent stamped addressed envelope for reply.

Dorothy Dix Has Word to Say About Hasty Marriage

BY DOROTHY DIX

A woman legislator has got a bill against hasty marriage passed by the New York assembly by a vote of 101 to 1. Her measure requires a seventy-two-hour interval between the issuance of a marriage license and the performance of the ceremony, which should, at least, provide a life-saving pause for babes in arms and the sports who marry strangers on a date. It gives them time to consider what they are doing before they take the fatal plunge.

DOROTHY DIX

All of us have seen over and over again the tragedies of precipitant marriages. We have had our own hearts broken, or witnessed our friends' hearts break, over the runaway marriages of their children who, on the impulse of the moment, left a school dance to take a husband or wife with no more premeditation or purpose than they would at taking a chocolate soda.

We have seen the misery and the blasting of every hope and ambition that talented young men and women have brought upon themselves by gin marriages. And it has seemed to us grotesquely ironic that at an age when a child can make no other binding contract it can make a marriage contract which mortgages its whole future life; that while we try to safeguard youth against all other dangers we do nothing to save it from the greatest peril of all, which is an ill-assorted marriage.

Of course, there may be a few sporadic instances of love at first sight, men and women who meet their predestined mates and forthwith hied to the parson, whose marriages turned out happily, but such cases are as rare as hen's teeth. And even these would be safer if they were kept in cold storage a while so that the party of the first part and the party of the second part could keep their fingers on their pulses and find out whether they

to pay or ask her to let you know, before making definite arrangements, the amount of her fee.

Remove the center from the angel food cake to form a box. Soak gelatin 5 minutes in water. Dissolve over boiling water. Cool and let congeal a little. Beat until frothy and add rest of the ingredients. Chill. Pour into the cake. Chill until firm. Cover top and sides with whipped cream colored a very delicate green. Serve cut in wedge-shaped pieces. (Spont cake may be substituted for the angel food cake.)

A few tablespoons of chopped sweet red and green peppers make cold salad or salads attractive and add much to their flavor.

It's rich-looking, yes, but it's also easy to make—this handsome lace motif done in the popular popcorn stitch. Look closely—see the "stars" throughout the design? They're of popcorn stitch set off by lacy mesh, and oh, so effective! With crochet hook and some string, you're all set to turn out enough of these single medallions for spread, cloth or scarf. Pattern 1488 contains directions for making the medallion and joining it to make various articles; illustrations of it and of all stitches used; material requirements; a photograph of the medallion in actual use.

Send 10 cents in stamps or coin (coin preferred) for this pattern to the Appleton Post-Crescent, Needlecraft Dept., 82 Eighth Avenue, New York, N. Y. Write plainly pattern number, your name and address.

Old Gardener Says:

BY E. I. FARRINGTON

The Eschscholzia or California poppies have seldom been thought of as edging plants, and yet they may be used very successfully in that way. They come up very quickly from seed sown where the plants are to flower, and they remain in bloom all summer and well into the autumn. If kept from going to seed, moreover, the silvery, fine cut foliage is neat and clean and looks well even when there are no blooms. One point to remember when sowing the seed is that it must be very lightly covered and that thick planting usually means considerable thinning later. A light mulch of peat moss or grass clippings around the plants in hot weather will be helpful.

My Neighbor Says—

Tulip bulbs should be lifted after three or four years if you wish to have blossoms of high quality. Daffodil bulbs should also be lifted but may stay longer in the ground than the tulip bulbs.

To clean old brass, rub it hard with the inside of a lemon, let stand a few minutes, then polish with something soft, flannel or chamamo.

Save the water in which fresh vegetables are boiled. It makes excellent stock for soup.

Before closing a house for the summer it is a good plan to sprinkle insect powder or borax and powdered sugar freely about the bathroom, closets, sink and other places to which roaches may be attracted.

Never leave heating appliances connected when not in use. Fire is too frequently caused in this way.

Hitler, Mussolini Demand Our Freedom be Curtailed

BY WESTBROOK PEGLER

New York—Although Mussolini insists that fascism is not an export commodity and Hitler says the same of his type of lunacy, there comes a point in their relations with the free countries when they try to impose their peculiar ideas on the neighbors. They both presume to suggest, even demand, that freedom of speech and freedom of the press be curtailed in countries which guarantee such freedom.

Inasmuch as impaired or limited freedom in these matters isn't freedom at all, what they require of us is the abolition of two very important rights. It makes no difference to them whether we and the British do this by violating our existing laws or by changing the laws in violation of our principles.

They tell us what we have to do and leave the details to us which is generous of them, to be sure. The recent La Guardia affair was an instance of interference. It may be true that was only campaigning when he said Hitler would shame Nero out of a chamber of horrors, or whatever it was that he did say, but unless you are going into a question of etiquette, Fiorello's position was sound.

However, our laws don't deal with etiquette. Mayor La Guardia was inside the law and if it comes to a matter of etiquette, our little chestnut-stabber would have been justified if he had turned on Cordell Hull and given him the rough side of his tongue for apologizing to Hitler in the name of the national government. He could have said to Mr. Hull:—

"Listen, you, what do you mean depicting the conduct of the lawfully elected mayor of New York? Mind your own business."

National Government Doesn't Back Official Speeches
And he would have been in the right, because, as Mr. Hull, himself, pointed out to Adolf, the national government has neither authority nor responsibility in the utterance of officials of the subdivisions. The national government is so fastidious about their independence that it doesn't even tax their official salaries.

Mussolini hasn't given us any trouble, but he has been needing the British for a couple of years. His press, like Hitler's is strictly official. No Italian or German newspaper dares print anything contrary to instructions or omit anything sent down from the press-and-propaganda bureau with the "must" stamp on it.

So when Mussolini's papers print dirty pieces about the British and even incite riots around the British embassy in Rome as they have done, those pieces are really state documents and the official sentiments of Popeye, himself. On the other hand, when a British paper plucks a little fuff off Popeye's chest and blows it in his face with a reference to Adowa or Caporetto, or the dashing retreats of the black shirts in Spain, that is an independent utterance.

Mussolini Trying to Get World to Think of Conquerors
The reason Mussolini burns up at these references is that he has spent 14 years trying to make the world and Italy think of the Italians as conquerors. But the British government isn't responsible. The cabinet members probably do get some private enjoyment out of these reminders of occasions when the invincible legions ran like hares, but they know every nation has its own raw spots. The only difference is that Mussolini can't take it. He can dish it, but he can't take it at all.

After La Guardia tossed off his crack about Adolf, the Nazi papers turned on the heat and the most flattering thing they said about the American people was that we were a race who kept our hats on indoors.

Pegler

put our feet on the table and spat chewing gum at the walls.

That was the official utterance of the Nazi government and there is no debate whatever on that point. Can you imagine what would have happened to any editor who had printed that remark without official approval?

Must Tell These Countries When to Stop Their Demands
Yet they are demanding that the country revoke freedom of speech to prevent unfriendly utterances by minor officials in the sub-divisions of the nation. And then they went further and threatened to interfere in our domestic affairs, although in their country Americans are forbidden by law to organize interference and don't care enough about Germany to do it anyway.

In both cases there is only one thing to do. The free countries must look them dead in the eye, stamp on their horns and tell them to go to hell. Otherwise they will run us ragged, apologizing, explaining, curtailing our rights until we shall be no better off than they.

City Nurse Makes 172 Field Visits in April
Mrs. Josephine Verstegen, city nurse, made 172 field visits during April, according to her monthly report. She spent 134 hours on the field visits and a total of 208 hours on duty. She cared for 20 persons who visited the health office, held 15 other office interviews, attended 1 meeting and made 3 organization visits. Of the total number of field calls made there were 112 visits to adults, 11 to school children, 22 to preschool children and 27 to infants.

Menasha Bands to Be Represented at National Tourney

Local Entrants to Leave Thursday for Columbus, Ohio

Menasha — Four members of the Menasha High school band and an accompanist will be entered in the national band tournament to be held at Columbus, Ohio, Thursday, according to L. E. Kraft, band director.

Helen and Gerald Hendy will compete in the cornet competition and John Homan will play in the clarinet group. Lamar Foth will accompany the trio on the piano. Mr. and Mrs. L. E. Kraft will also make the trip.

Six members of the St. Mary High school band, accompanied by their director, G. W. Unser, will also compete in the tournament. Those who will enter from St. Mary are: Marcellus Griesbach, E. flat clarinet; Robert Griesbach, E. flat clarinet; Elroy Hopfensperger, cornet; James Oberweiser, drums; Patricia Heenan, bassoon; and Ann Mauthe, clarinet.

The two groups will leave Menasha together at 7:57 Thursday morning and will return at 7:29 Sunday evening. To be eligible to enter the tournament, entrants must have won first places in a state tournament last year.

Women of Parish To Serve Dinner In School Hall

Menasha — Ladies of St. John's Catholic parish will sponsor a dinner from 11:30 to 2 o'clock Sunday in the school hall and preparations for it are underway by Mrs. George Rembleski and her sub-committees. The Holy Name rally of the Green Bay diocese is to be held in the Twin Cities Sunday and, although the dinner is open to the public, about 500 men from Holy Name organizations are expected to be served at the dinner. Ticket sales chairman is Mrs. Celia Rappert and working with her are Mrs. Art Kolasinski and Mrs. Gertrude Feltenberger. Mrs. John Zelinski is chairman of the dining room committee and the young ladies of the parish will serve. The kitchen committee includes Mrs. Ann Dombrowski, Mrs. Frances Waskiewicz, Mrs. Julia Michalkiewicz, Mrs. Josephine Drier, Mrs. Anna Swartzbauer, Mrs. D. Bojarski, Mrs. Louis Bojarski, Mrs. Joe Krysiak, Mrs. J. H. Schmidt, and Mrs. B. F. Oskiewski.

FAVORABLE WEATHER SPEEDS WORK ON NEW HIGH SCHOOL

Workers today started the pouring of concrete for the \$575,000 Menasha High school shown above, which is under construction at Milwaukee and Seventh streets. It is expected that a number of classrooms will be ready to be occupied by September. When completed, the school will be one of the most modern educational plants in the state. (Post-Crescent Photo)

Expect to Open Classes in September in New School

Menasha — With construction work on the \$575,000 Menasha High school being rushed, it is expected that many high school classes and the vocational school will be housed by September, according to a report from Maurice Schumacher, contractor.

Structural steel work on the auditorium is about 80 per cent complete. Workmen started to pour concrete today for the second floor of the building.

A total of 123 men are employed in construction work on the school, including 18 skilled bricklayers who are making the most of the excellent building weather. The remainder of the total includes carpenters, steel workers, semi-skilled workmen and common laborers.

Rough Work on Pool
Rough work on a proposed swimming pool will be finished with the possibility that the pool will be completed if enough money is available. The pool will be built below the gymnasium and, if completed, will be modern in every respect. The pool had originally been eliminated from the plans.

An additional \$114,000 for equipment may be available in the event that the application for a federal grant of \$51,444 is successful. Aldermen recently voted \$42,876 as Menasha's share to be appropriated if the application is successful. The board of education has \$20,000 available to complete the total.

Marie Klein, Appleton, Is Named President of Sixth District Nurses

Neenah — Miss Marie Klein, Appleton, was reelected president of the Sixth District Wisconsin State Nurses association at a meeting at the home of Mrs. C. B. Clark, 617 E. Wisconsin avenue Tuesday afternoon. Mary Orblson, Appleton was named first vice president; Bernice Landig, Menasha, second vice president; Lydia Bouressa, Neenah, secretary and Mrs. Sigred Dudley, Menasha, was re-named treasurer. Mrs. Bouressa and Miss Agnes Moerchen tied for the office of secretary but the latter withdrew in favor of Miss Bouressa. Jemima Bell, Kaukauna and Alice Tollefson, Neenah, were elected directors for three years.

S. F. Shattuck, who with Mrs. A. L. Blackstone, Waukesha; Senator Harold M. Groves, Madison; the Rev. Mr. Simmons, George Crownhart and Dr. Schumacher made up the health and disability committee of the Citizens' Committee on Public Welfare, appointed last year by Governor Philip LaFollette, was guest speaker on the afternoon program. The committee with its seven sub-committees, child welfare, public assistance, delinquency, finance, personnel and administration and health and disability was to make a survey of the state institutions and present recommendations.

Great Weakness
Declaring that shortage of trained personnel in state institutions was the greatest weakness found by the committee on health and disability of which he was chairman, Mr. Shattuck stated that the members "very definitely placed this weakness ahead of all others."

"Mendota and Winnebago hospitals have a combined going load of 1,600," said the speaker, and excluding the two superintendents, 9 doctors take care of that load which does not take into consideration the turn-over of from 100 to 140. I wouldn't dare say what the 9 doctors' yearly load is except that it is absurdly heavy. The poverty in the number of trained personnel made a great impression on the committee. At Union Grove and Chippewa Falls too, the personnel was shockingly small. These hospitals are allowed \$75 per month for medical expenses, less than 10 cents per inmate per month. Our committee recommended four times that amount."

Hamper Coordination

Charging that social legislation in the last four years has vastly hampered the coordination of agencies within counties and states, Mr. Shattuck explained that as a result of the findings of the committee, representatives of agencies in one particular county were assembled at a meeting with committee members and several case studies were presented to them to illustrate the uncoordinated situation.

"Why shouldn't the very maximum of private initiative be used in every community," asked Mr. Shattuck. "For instance the Visiting Nurse association in the Twin

HEADS NURSES

Miss Marie Klein, above, Appleton, was reelected president of the Sixth District Wisconsin State Nurses association at a meeting at Neenah yesterday. Miss Klein is the Outagamie county nurse.

Cities is doing a splendid piece of work, perhaps better than any other agency could do. Why duplicate it?

Present Reports

At the annual business meeting of the district association, Marie Klein presented the president's report. Mrs. Sigred Dudley, Menasha, gave the treasurer's report. Sister Gregoria, Appleton, gave the program committee report and Miss Lina Johnson, Appleton, reported on publicity. Mrs. Dora Lemmers, Appleton, reporting on the work of the legislative committee, said that the bill now under consideration would compel quarantine for tuberculosis. Miss Celia Flynn, Kaukauna, reported on the Green Journal, Miss Mary Orblson, Appleton reported on the welfare and membership committees activities and Miss Evelyn School of Neenah presented the American Red Cross committee report.

Miss Bridget Boyle, matron at Riverview sanatorium, was elected an honorary member of the sixth district group.

The association will meet Wednesday next year, it was voted, and three of the meetings will be held in the afternoon and two in the evening.

Farley Hutchins, Eugene Johnson, Ruth Johnson and Dorothy Barker, Neenah High school students, presented musical selections on piano, saxophone and trombone during the program. Mrs. Clark served a buffet supper following the meeting.

Plans for Summer Activities Made By Jaces at Meet

Picnic, Tennis and Golf Tournaments Being Considered

Menasha — Summer activities of the Menasha Junior Chamber of Commerce were discussed at its regular meeting in Germania hall last evening. Among the projects under consideration is a picnic and a committee was named by President R. J. Fink to bring in a report at the next meeting. He also named a committee to arrange for a picnic at Stroebe's island to take the place of the next regular meeting.

O. F. Johansen and James Howley were named as a committee to consider sponsorship of a tennis tournament for persons under 18 years of age this summer. A golf tournament for members only was considered.

It was voted to pay \$4 toward the expense of delegates to the state junior chamber convention at Rhinelander May 28 to 31. The Menasha chamber will be represented by three delegates. Marvin Hurley, executive chapter of the national chamber, will be the chief speaker at the meeting.

The junior chamber also decided that hereafter it will place all its dependence for publicity upon the local newspaper, and the secretary was instructed that all news matter relating to activities of the chamber must be given to that newspaper to the exclusion of any other.

The decision was reached after a discussion in which a representative of the local newspaper indicated he was displeased because a certain news story relating to jace activities was printed in another newspaper before it appeared in his own.

Completes Check on Rural Mail Boxes

Menasha — A check of rural mail boxes conducted during the last week today was completed by Joseph R. Coyle, postmaster. He found most boxes in good shape and where boxes needed repairs recommended that repairs be made. He also recommended that some new boxes be purchased. Only one rural route is handled out of the Menasha office. The route is 55 miles long and carries about 1,500 subscribers.

SPEEDER IS FINED

Neenah — Clarence Hedtke, route 4, Oshkosh, was fined \$10 and costs by Judge L. O. Cooke in justice court this morning when he pleaded guilty to a charge of speeding. Hedtke was arrested by Neenah police while traveling 43 miles an hour on Main street Wednesday afternoon.

Menasha Eagles To Meet Neenah In Game Sunday

Sam Kraus, Ace Backstop, Is Lost to Squad For Clash

Menasha—The Menasha Eagles will play without the services of Sam Kraus, ace backstop, when they meet the Neenah Merchants in a Northern Valley Baseball league game at 2 o'clock Sunday at Washington park, Neenah.

Kraus injured his left hand in a game against Oshkosh last Sunday and will be unable to handle the job behind the plate Sunday, it was announced this morning. Cash Smarzynski, utility catcher, will replace Kraus.

Brokop will again be on the mound for the Eagles when they clash with the Neenah team while Schultz will hurl for the Merchants. Menasha lost their initial start last Sunday to Oshkosh, 5 and 2, while the Merchants defeated Grand Chute 9 and 0. Neenah lost to Oshkosh the Sunday before while Menasha's game with Appleton was postponed because of wet grounds.

In the infield for the Eagles will be R. Becker, at third base, Pawlowski at second base, Beach at short stop and Hoks at the initial sack. Wilmet will be at centerfield, Bretbauer at left field and E. Becker at right field.

Urgent Change in State Labor Act

Witte and Wraetz Ask Removal of Restrictions On Board

Madison—(P)—Two members of the new state labor relations board, Pro. Edwin E. Witte of the University of Wisconsin and Chairman Voyta Wraetz of the industrial commission, appealed yesterday for removal of the legal restrictions that board members cannot hold other positions.

They also asked support of an appropriation of \$5,000 to be made available at once so the board may employ help on the 20 industrial disputes it now has under consideration.

They spoke before the joint finance committee on a bill by Assemblyman David Sigman (P), Two Rivers, co-author of the labor act, which allows the \$5,000 and makes a part-time board possible.

Witte said flatly he will not be able to continue indefinitely but asserted the state could do no better than to retain Wraetz and Father Francis J. Haas of Milwaukee, the third member, who was not present.

Father Haas is one of the two best labor mediators in the United States," Witte said. "His services can only be retained on a part-time basis. And I hope that Mr. Wraetz will be continued as a member of the industrial commission."

Wraetz said two years of experience with a part-time board will permit the state to use its best judgment on how the labor tribunals ultimately should be established.

Witte told the committee the present members have found a big job on their hands and have been working until 2:30 and 3:30 in the morning.

"We clearly need to employ some mediators," he said.

Loyalists Fight To Take Toledo

into a field full of wounded and dead, ploughed by artillery shells and hand grenades.

Between the attack waves, Franco's gunners sent shells into the government's second and third line positions while trench mortars pumped missiles into the government's machine-gun nests and dugouts.

Among prisoners taken by the insurgents were men wearing the insignia of the "Dimitroff brigade" which apparently had been rushed as reinforcements to the army which had taken up positions outside Toledo last fall.

Toledo is 40 miles south and slightly west of Madrid.

Madrid—(P)—Insurgent guns, renewing bombardment of Madrid, sent the capital's toll to 217 killed and 693 wounded since April 1, it was announced today by General Jose Miaja.

Seventy-six of the dead and 240 of the wounded were women, Miaja said. A dozen heavy shells screamed into the heart of the city last night.

POSTPONE MATCHES
Menasha—Baseball matches in the Banja Twilight Golf league have been postponed until next week. Play in the league was started last week and will be continued every Tuesday until sometime in September.

COMMITTEE MEETINGS
Menasha—The old street committee of the common council will hold a meeting at 5 o'clock this afternoon in the city offices on Main street. M. J. Grode is chairman of the committee. The new street committee, headed by Clement Newcomb, met at 12:30 today.

Disposal of all adult stock in serious outbreaks of paratyphoid among fowls is recommended by L. F. Payne, poultry husbandry authority at Kansas State College.

Rev. Mortell Is Speaker At Mother-Daughter Event

Menasha—Sixty-four mothers and daughters attended the Catholic Daughters of America mother and daughter banquet at Hotel Menasha Tuesday evening. The program which followed the dinner was featured by talks by the Rev. W. P. Mortell, pastor, St. Patrick's Catholic church and Mrs. Verne Crockett, Racine street state agent of the Wisconsin Catholic Daughters who returned Monday evening from the state meet at LaCrosse. Father Mortell paid tribute to mothers in his brief message after which Mrs. Crockett presented a resume of the convention and outlined some of the featured speeches.

Mrs. C. A. Peerenboom was toastmistress, Mrs. D. M. Rogers gave the toast to daughters, Miss Margaret Stipp, the toast to mothers and Miss Ethel Harold sang a solo. Katherine Ann Tuchscherer gave a reading. The committee in charge of the banquet included Mrs. Paul Bach, chairman, Mrs. Henry Schmalz, Mrs. Gilbert Chapleau, Mrs. Walter Baurenfiend, Mrs. William Clifford and Miss Zelta Mortell.

Marquette Confers 4 Honorary Degrees At Special Rites

Milwaukee—(P)—Marquette university conferred four honorary degrees today at a student-faculty convocation addressed by the Rev. William M. Magee, S. J., president of John Carroll college, Cleveland, Ohio.

The convocation was the first of several observances planned in honor of the 300th birthday anniversary of Father Jacques Marquette, born at Laon, France, June 1, 1637.

Just a missionary-explorer who discovered the Mississippi river, Father Magee, former Marquette university president, told the convocation "the status of Marquette is a symbol of exploration and its ripened fruits colonization: of commerce, of industry, of the material benefits in comfort and convenience which applied science with lavish hand has scattered everywhere."

Seeing in these gifts of science a "potential tragedy," he pointed to Marquette's example—a life of religion—as a means to control these gifts "so they may steadily enrich and not destroy civilization."

Names Committee To Develop Plans For Bathing Beach

Will Get Estimate of Cost On Swimming Place At Lutz Park

Appointment of a committee to develop and submit plans for a bathing beach in the Fox river at Lutz park, with estimated cost, has been made by Mayor Goodland, Alderman Keller has been named chairman. Other members are E. B. Rachow, chairman of the park board, Alderman McGillan, chairman of the recreational committee, Alderman Steinhauer, chairman of the finance committee, and Alderman Brautigam, chairman of the street and bridge committee.

The council instructed the mayor to appoint the committee at its next meeting upon the motion of Alderman Keller.

Development of Lutz park as a recreation center has been urged by Mayor Goodland and the matter of creating a bathing beach there has been before the council on several previous occasions.

Extension of the street along the east side of the park to Mason street to provide a west exit is now being studied. City Engineer L. M. Schindler, Alderman Keller and City Attorney Harry Hoeffel were named on a committee to investigate the matter of securing the necessary land.

Sterilization Measure Is Killed in Assembly

Madison—(P)—The assembly, ignoring a recommendation for passage from the finance committee, killed by a vote of 49 to 42 today a bill which would have strengthened the present state law on sterilization of institution inmates and permitted voluntary sterilization of other persons.

The bill by Assemblyman Edward Keifer (P), Milwaukee, would have set up a board of examining physicians authorized to determine whether mentally deficient persons should be sterilized before being released on parole from institutions.

The physicians board would have been charged with exercising the discretionary power now vested in the board of control.

Waupaca High School Wins Central Wis. Track Title

Manawa Takes 2nd Place; One Record Broken, One Tied

Frailing, Marion, Deckert, Manawa, are High Scorers

BY GORDON MCINTYRE
WAUPACA High school track and field team won the Central Wisconsin conference track and field tournament yesterday at Whiting field of Lawrence college when it splashed and skidded to a championship in the annual Central Wisconsin conference track and field tournament.

Waupaca scored 48 2-3 points to take the title but was closely pressed by Manawa with 44 and Amherst with 43. Fourth place went to Marion with 36 and fifth to Weyauwega with 25 5-6.

The new champions won their title by dint of numbers for they topped only two first places and tied for a third, but they made up for things by accounting for a goodly number of seconds, thirds, fourths and fifths so that when the meet ended the team had two or more points in every event except the high hurdles.

Staged in Rainstorm
Because most of the meet was staged in a driving rainstorm, only one record was broken and one tied. Bill Deckert of Manawa tied the high hurdle record when he ran the distance in 16.6 seconds while Arthur Lorr of Marion chopped a second off the low hurdle record when he splashed the distance in 28.5 seconds. The old record was hung up by Ristow, Amherst, last year here.

Individual scoring honors for the afternoon went to Deckert of Manawa and Reno Frailing of Marion. Deckert was first in the 100 and high hurdles while Frailing copped the 220 and the 440.

The meet was staged under the direction of Coach Arthur C. Denney of Lawrence who coached Paul Frailing, Marion, and Lawrence college students the judges and recorders.

Results of the events:
100-yard dash—First, Deckert, Manawa; second, Ristow, Amherst; third, Howen, Amherst; fourth, Johnson, Waupaca; fifth, Larson, Manawa. Time—11.
220-yard dash—First, Frailing, Marion; second, Stevens, Manawa; third, Christofferson, Waupaca; fourth, Parelski, Amherst; fifth, Johnson, Waupaca. Time—24.5.
440-yard dash—First, Frailing, Marion; second, Stevens, Manawa; third, Christofferson, Waupaca; fourth, Court, Waupaca; fifth, Webb, Marion. Time—56.
880-yard run—First, Miller, Weyauwega; second, Meyer, Marion; third, Howen, Amherst; fourth, Hemmingson, Waupaca; fifth, Hurd, Waupaca and Mulvaney, Marion. Time—2:08.8.
1 mile run—First, Griffith, Waupaca; second, Hall, Waupaca; third, Sabrowski, Manawa; fourth, Elandt, Marion; fifth, Hanson, Amherst. Time—5:04.
High hurdles—First, Deckert, Manawa; second, Berto, Amherst; third, Barbu, Amherst; fourth, Wisniewski, Marion; fifth, Lorr, Marion. Time—16.6 (Ties Record).
Low hurdles—First, Lorr, Marion; second, Hemmingson, Waupaca; third, Ristow, Amherst; fourth, Wisniewski, Marion; fifth, Hurd, Weyauwega and Solie, Waupaca. Time—28.5 (Record; old record 26.6).
Shot put—First, Behnke, Weyauwega; second, Parelski, Amherst; third, Hannaman, Weyauwega; fourth, Klake, Waupaca; fifth, W. Stevens, Manawa. Distance—40 feet, 5 inches.
Discus—First, Anderson, Waupaca; second, Klake, Waupaca; third, Pavelski, Amherst; fourth, Daley, Marion; fifth, Subrowski, Manawa. Distance—101 feet.
Pole vault—First, Nienhaus, Weyauwega; second, Elandt, Marion and Kullen, Manawa; fourth, Larson, Manawa; fifth, Holly, Waupaca and Sazo, Waupaca and Hurtz, Weyauwega. Height—9 feet, 6 inches.
High jump—First, Court, Waupaca and Grancorbiz, Weyauwega and Kullen, Manawa and Berto, Amherst all tied; fifth, Hemmingson, Waupaca and Nienhaus, Weyauwega. Height—5 feet, 2 inches.
Broad jump—First, Kullen, Manawa and Holly, Waupaca; third, Lorr, Marion; fourth, Behnke, Weyauwega; fifth, Grancorbiz, Waupaca. Distance—17 feet, 9 inches.
Relay race—Won by Amherst; second, Manawa; third, Waupaca.

MARION RUNNER WINS 440-YARD DASH

Frailing copped the race easily in 56 seconds and during the afternoon won two firsts for his school and was tied for high point honors. (Post-Crescent Photo)

Chaff 'n Chatter

By Gordon R. McIntyre

PHIL ZWICK of the Kaukauna Zwicks, still sojourning in Africa, recently wrote a story for the newspapers thereabouts on his fistic rise. It contains several references to his early days around Kaukauna so we've clipped a few paragraphs.

"I picked up the art of boxing as a youngster. My tutor was Eric Filen, a fighter who could handle his 'dukes' in the days of Mike Gibbons.

"Ellen also worked with a brother of mine, Jack, who was in his prime then, knocking out some of the best welterweights in the United States. He had about 40 contests, of which 60 per cent were knockouts. He was a terrific puncher.

"I remember once while boxing with him I was nailed with a left hook to the body. It took my wind away and as I was trying to say 'Don't hit me, I can't get my wind'—bang and the lights went out. I woke up outside our training quarters, which were at the back of a barber shop owned by an Irishman, Charlie Collins.

"We had a punching bag against the wall, which made a terrific noise and also shook the building. On Saturday nights when the shop was crowded, Collins would shout, 'Say, guys, go easy! Just how he ever cut hair was a miracle, but he was a good scout.

"We could always get plenty of sparring partners with murder in their eyes and no take it easy stuff. It was the survival of the fittest. But when a contest came up one was sure in shape for it.

"My first fight was in Appleton, against King Schwebe. I weighed 104 pounds and Schwebe 113 pounds. I received \$20, but had a tough time getting it, as promoter Elmer Johnston had only offered \$15.

"But I had a motorcycle which needed new tires and I wanted bullets for my gun as well, so I held out for \$20 and got it. Anyway, I won my fight, putting him down for two counts. I had half a dozen more fights with a bit of an increase of purse. My last fight, before heading 2,000 miles south, was at Oshkosh, where 'Pal' Moore boxed the main event. I defeated Ray, of Chicago.

The baseball season is definitely underway... Eddie Lenahan was shagged out of the park at Sheboygan last Sunday when he kicked on Joe Hauser's home run... He claimed it was foul... Hal Schiffler, bein, who refereed that pro basketball game at Kaukauna, did the booting.

"They've bought a compass for the University of Wisconsin crew coach's motor boat... The Badgers went on a few days ago in a fog and wandered over most of Lake Mendota before they finally heard the 7 o'clock chimes on Music hall and thereby got their bearings.

The seating capacity of the Wausau baseball park has been increased... Who says Class D baseball doesn't pay its way?

Appleton High school and Fox river valley conference half milers are hoping that the 1 minute, 38.2 seconds time hung up by Elv Francis of Manitowish in the half mile last Saturday isn't the half mile.

They are trying to feel certain that the watch was too fast, or something... For if Francis can dash around the track twice in that time why run against him... His time was a new state record and better than most of the colleges and some universities can do.

Green Valley in Tie For Maple League Lead

Nichols—Shawano defeated Galesburg 14 to 13, Green Valley nosed out Hofa Park 6 to 5 and Nichols whitewashed Leeman 20 to 0 in Maple Valley league games this week. Next Sunday's games will show Shawano at Hofa Park, Green Valley at Nichols and Galesburg at Leeman. Shawano and Green Valley are leading the league and three teams are tied for second place.

The standings:

Team	W.	L.	Pct.
Shawano	1	0	1.000
Green Valley	1	0	1.000
Galesburg	1	1	.500
Nichols	1	1	.500

Freddie Steele Stops Battaglia

Wisconsin Fighter Counted Out in the Third Round

Seattle—Middleweight champion Freddie Steele of Tacoma "showed his critics" here last night by knocking out Frank Battaglia of Palmyra, Wis., the challenger, in the third round of a scheduled 15-round title fight in the civic auditorium. Steele weighed 136; Battaglia, 152.

After scoring knockdowns in the first and second rounds, Steele floored the gentleman farmer for the full count of 10 in 34 seconds of the third round. A crushing left, following a two-fisted barrage, sent Frank flat on his face on the canvas. His handlers dragged him to his corner.

Before the fight, Steele, irked by comments of eastern sports writers that he did not look like a champion, said he intended to "show them" he was a champion at Battaglia's expense.

A crowd of 8,000 saw the fight. Battaglia landed on the floor for the first time in 31 seconds after the battle started. Steele's first blow, a left to the jaw, put him down for the nine-count.

A brisk right and left attack, raining on Frank's head and jaw, tumbled him over in the second round for a count of three, but the bell cut the count short. Early in this round, Battaglia landed his only good blow, a right to the chin that rocked the champion and made him angry.

Groggy, but game, the Wisconsin boy came out of his corner at the start of the third only to meet a bombardment of gloves as Steele rushed in for the knockout.

YESTERDAY'S STARS

By the Associated Press
George Caster, Athletics—Held Tigers to four hits as A's, with 4-1 victory, remained at top of standing.

Cy Blanton, Pirates—Shut out Reds, 3-0, with five hits. Harry Eisenstat and Gibby Brack, Dodgers—Former held Cards to two hits in relief role to win his third game; latter hit homer, double and single and drove in two runs as Brooklyn won, 9-7.

Kiki Cuyler and Ival Goodman, Reds—Former belted four singles in six trips to plate; Goodman cleared home run and double, batted in three runs, in 13-3 rout of Phillies.

Beau Bell, Browns—Collected four for four, including two-bagger, as Senators were beaten, 7-5. Slick Castleman and Dick Bartell, Giants—Former's four-hit pitching stopped Cubs, 10-1; Bartell hit seventh homer of season.

John (Footsie) Marcum, Red Sox—Pitched five-hit ball in five-inning relief job, beating Indians, 11-4, and helping own cause by batting in two runs.

Tony Piet and Jack Hayes, White Sox—Each hit single and double, their combined efforts accounting for winning margin in 7-2 defeat of Yankees.

Hilbert Nine Loses To New Holstein, 6-2

Hilbert—The local baseball team played at Kiel Sunday and was defeated, 6 to 2. Lester Hillman started on the mound for Hilbert and walked the first three men facing him. He worked four innings and issued six walks, hit one man and allowed six hits which, with four errors, resulted in six runs. Alphonse Suttler pitched the remainder of the game and allowed three hits and no runs. Max Altman did the receiving and got one hit.

Hilbert is anxious to get its new diamond completed soon. It is in the village park. The first scheduled game in the park is May 23 when New Holstein plays at Hilbert.

Open Play in Little Four Softball League

Little Chute—Play in the Little Four Softball league will open next Sunday with Rose Hill meeting the Hietsas Shoes and Freedom taking on the County Trunk squad. Rose Hill and the Shoes will clash on the Shoes' diamond in Little Chute and County Trunk will play its home games at Sunny Corners. Freedom will play home games on the diamond at Murphy's Corners.

The teams will play a 12-game schedule with a split season. Dick Bohm manages the Rose Hill Squad and Paul Hietsas is in charge of the County Trunk team and Edwille Murphy will handle the Freedom entry.

Pretty Catherine Hines, 21, competes and holds her own with the best male jai alai players in Milwaukee, Fla.

Runs in Eighth, Ninth Give Brews Another Victory

Score Is 6 to 5; Mud Hens Doing Well Despite Cripples

MILWAUKEE—The Milwaukee Brewers staged their favorite finish yesterday—a rally in the closing innings—to win their ninth straight ball game and series opener from the Columbus Red Birds, 6 to 5.

Trailing 5 to 3 in the ninth, the Brewers forged into victory on singles by Otto Bluge and Johnny Glynn, a walk to Ken Keltner, a single by Gullie scoring Bluge and Glynn, and walks to Short and Winegarner. The league leaders had picked up two additional runs in the eighth.

Ralph Winegarner, who went in for pitcher Ted Pressnell in the ninth, was credited with the victory. Gornicki was the losing pitcher.

Columbus 102 000 101—5 15 1 Milwaukee 001 00 025—6 12 1 Gornicki, Macon and Chervinko; Pressnell, Winegarner, and Brenzel and Helf.

For a team with many regulars on the hospital list, Fred Haney's Toledo Mud Hens are doing a great job of staying up among the leaders.

Shortstop Jimmy Adair has been out with injuries, making all kinds of shifts necessary, yet the Hens, after taking the first game of the series from Kansas City, 6 to 5, yesterday, were in second place today. With Adair out, third baseman Fleea Clifton has been playing second base, with second baseman Jack Croucher at shortstop.

Haney, a third baseman himself, has been unable to help out much because of a painful knee injury. The Hens took advantage of Ted Clifton's wildness to score three runs in the third, tying the score, and went on to pick up enough runs to win off old Willy Moore.

Wet grounds prevented the series openers at Minneapolis and St. Paul.

Life of Reilly Ends for Louis

Challenger to Start Work Today for Bout With Braddock

Kenosha—The life of Reilly ended today for Joe Louis, who loves his sleep and fried chicken. From now on until the Brown Bomber shuffles into the ring in Chicago, June 22, for his scheduled heavyweight championship fight with James J. Braddock, he will be in strict training.

Louis is quartered in a \$96,000 summer home, property of Fred P. Fischer, wealthy Chicagoan, located on the edge of Lake Michigan, five miles south of Kenosha. It is a ten room Spanish type home, luxuriously furnished with six bedrooms and two baths. It was once the weekend retreat of William Hale Thompson, former mayor of Chicago.

There was no financial concession made by Louis for establishing his camp here. Instead he must pay \$1,000 rental for the house, he also has taken over a small hotel for his sparring partners. Four of them are due tomorrow.

Louis will train in the municipal stadium, located in downtown Kenosha, on the lake front.

He plans to box in public only four times weekly. Julian Black, co-manager of the challenger, will motor to Milwaukee today, applying to the Wisconsin State Athletic commission for a license permitting Louis to charge admissions... They must pay \$25 a day for the use of the stadium and 15 per cent of the receipts which go to the city. The stadium, with a seating capacity of 4,000 is used for high school athletics and municipal baseball... It is enclosed by a 15 foot wall... The ring will be pitched in midfield with punching bag platforms alongside.

RECORDS WRECKED

Lawrence, Kas.—Half the college relay race records of the United States have been made at the Kansas relays. The current is—

St. Louis—Honeyboy Jones, 150, Pittsburgh, outpointed Frankie Hughes, 150, Indianapolis, 100.

Los Angeles—Lou Scaccia, 119, New York, outpointed Pete De Graze, 123, New York, 100.

Fort Worth, Tex.—Joe Elder, 142, Fort Worth, stopped Jack Donahoe, 138, Oklahoma City, 90.

Jimmy Dykes Planning To Return to 3rd Base

Chicago—Jimmy Dykes of the Chicago White Sox, has just about decided to become a playing manager again.

He has almost recovered from a "charley horse" and expects to play his first game of the season within a week. Young Steve Mesner who was expected to take over Dykes' job at third base, has been returned to Los Angeles, having failed to measure up to specifications.

Won't be Long Now Before Trout Fishermen'll be Out

OPENING day on trout water is some show! And it won't be long now before Wisconsin trout enthusiasts don their waders and start laying their flies down near some sunken log or over deep pools in the hopes of having old man trout take a snap at one of them.

Saturday hundreds of Appleton and Outagamie county residents will be shivering and shaking in the cold, gray dawn, along the banks of various trout streams in this vicinity. The season will open May 15, at 4 a. m., and will close Sept. 7, at 10 p. m. There is a limit of 15 trout per person, and the minimum length is seven inches.

The state law on trout fishing (general inland water season) states, "during the open season for trout, it shall be unlawful for any person or persons to take, capture, kill or fish for fish of any variety in the inland streams and creeks inhabited by trout or in which trout have been planted between 10 p. m. and the following 4 a. m."

It is not uncommon to have an edge of ice along the sides of the streams in this section of the United States on the opening day of trout season. But, however, even though the temperature does drop down around the freezing mark, most of the anglers' temperatures are well above the hundred mark.

"The early worm catches the fish" to change an old saying, so standing room along the edge of the streams will be at a premium a week from next Saturday.

Comment along any stream on the opening day usually runs something like this: "Phooey, such a business." "Mike dropped the bottle." "Say, there's a little honey of a gal just down the stream." "Gopher license, buddy?" "Aw, hell, let's go home." "No wait a minute, I got six chubs so far, maybe a trout will get there first on the next cast."

Some of the fishermen in the northern part of the state got the jump on the locals as the season opened May 1 on the Mississippi river Iowa-Wisconsin boundary waters, Mississippi river Minnesota-Wisconsin boundary waters including boundary waters of Lake Pepin, Lake St. Croix and St. Croix river, and in Ashland, Bayfield, Douglas and Iron counties.

Pirates Defeat Boston Bees; A's Again Trim Tigers

Lou Gehrig Fails to Hit for 20th Straight Time as Chi Sox Cop

BY BILL BONI

Associated Press Sports Writer

THE National League-leading Pirates are playing no favorites.

They moved into the Polo Grounds today to help the Giants raise their 1936 pennant, boasting six victories in seven starts since they came east last Tuesday.

They chalked up their sixth yesterday as Cy Blanton came up with a five-hitter that put a 3-0 damper on the Bees.

But the eastern clubs have proved little softer pickings for Pie Traynor's crew than the western teams before them. Only the Cardinals hold the edge on the Bees, winning the only game played.

The Philadelphia Athletics have had similarly clear sailing on their western tour, based on the fact of the American league as a result of their 4-1 trimming of the Tigers and Cleveland's fall before Boston by an 11-4 score. Connie Mack's galloping White Elephants moved into Cleveland today with a record of six won in seven starts.

It was rookie George Caster who pinned a four-hit drubbing on the Tigers, making it four straight defeats for Detroit and the first loss in five appearances for Roxie Lawson.

The Yankees dropped a 7-2 verdict to the White Sox, as Lou Gehrig failed to hit again, making it 20 straight fruitless trips to the plate.

In the other American league game, Jack Knott did a neat relief job for the Browns to top the Senators, 7-5. Pete Appleton, also appearing as a relief hurler, dropped the fourth game.

The Dodgers edged into the National league first division at the expense of the Cubs with a 9-7 defeat of the Cardinals. For the second day in a row Brooklyn played errorless ball.

Four home runs, including Dick Bartell's seventh of the season and Eddy Chandler's four-hit hitting, proved too much for the Cubs, the crippled Chicagoans bowing to the Giants, 10-1. The Reds won on another batting spree, collecting 16 hits, and whipped the Phillies, 12-3.

Hortonville—Mrs. F. Stratton entertained the LaF Lot Bridge club at her home Tuesday evening. The guests were Mrs. J. Botsenbeck, Mrs. Elmer Falck, Mrs. Elmer Graef and Mrs. Harris Hauk.

Her son was born to Mr. and Mrs. William Watson Tuesday morning at their home here.

Joseph Klein, one of Hortonville's oldest residents, is critically ill at his home.

The village of Hortonville has chosen May 13 and 14 as clean-up days. Their objective is a clean city by Friday night.

Mrs. Ted Gartzke returned from St. Elizabeth hospital, Appleton, Tuesday morning. She submitted to a major operation about two weeks ago.

At a meeting of the local Holy Name society Tuesday evening in the Catholic school it was decided to charter a bus from the Wisconsin Michigan Power company to take the Hortonville High School band to Neenah Sunday to march in the Holy Name parade, in the lead of the Hortonville society.

Have Senators Asked for Waivers on Al Simmons?

BY EDDIE BRIETZ

NEW YORK (AP)—Have the Senators asked waivers on Al Simmons? ... King LeVinsky will be represented at the coronation of King George by Harold Steinman, his manager.

Mushy Jackson, handy man for Mike Jacobs, leaves for Kenosha, Wis., today with a cargo of sparring partners for Joe Louis.

Mickey Cochran calls Pitcher Rigney and Outfielder Steinbacher, both with the White Sox, two of the likeliest fresh men in the American league.

Max Schmelling is busy training and Madison Square Garden is renovating its big bowl in Long Island City. ... So what? ... After more than a month of silence, Dizby Dean is popping off again.

Al Jolson's lucky purchase of Henry Armstrong has given other celebs the itch to own a batter. ... Latest to get the bug is Phil Harris, the orchestra leader, who has offered \$7,500 for half of Glen Lee, the middle western welterweight.

Manager Joe Cronin and Catcher Rick Ferrell of the Red Sox were born on the same day of the same month in the same year.

Joe Cronin wants a correction. ... Says New York newspaper, men err when they said Wes Ferrell has gone temperamental again and took himself out of a ball game. ... "Wes was going badly," said Joe. ... "He did not seem to have his stuff and with Tony Lazzeri at the bat we agreed that if Tony got on, Wes was through for the day. ... Lazzeri singled. ... I ran to take the throw from the outfield and Wes walked off the field. ... I was motioning to McKinn to come in from the bull pen and finish the game."

There you are, Joseph. ... If John Henry Lewis retains his title against Bob Olin at St. Louis June 3, he'll quit the light heavies and go into business as a heavy.

Northern State League Notes

MOGULS of the Northern State league will meet tonight (Wednesday) in Kaukauna to take action of De Pere's exit and revamp the schedule on a seven club basis. It is not likely that another team will be added to the wheel.

According to reports reaching President Schuetze's office, the opening day crowds were very encouraging. The banner turnouts, despite chill weather, indicate that interest in the national pastime, is again on the increase.

The three clubs having lights, Green Bay, Kaukauna and Kimberly, are planning to play a number of exhibition games just as soon as the weather warms up. Some of the crack traveling nines have been booked for contests.

There is a lot of 'young blood' in the circuit this season as all the managers are giving the youthful home-town products every chance to make the baseball grade. Several first class prospects already have been unearthed.

Only two games are scheduled this Sunday. Kaukauna was booked with De Pere and is idle while Manitowoc's game at Kimberly has been set back until later in the season on account of the Holy Name convention at Neenah-Menasha.

Two Rivers, the 1936 champions, will raise the pennant before the game with Little Chute in the Walsh Memorial stadium, while Manager Bob McClain's Green Sox will pry the lid off at home against the revamped Oshkosh Indians.

Baseball stock has soared again in Kaukauna. Last season, the Kaws had a below par ball club and the fans turned sour. This year the Electric City tribe has got off on the right foot and John Coppes is all smiles again.

Marty Lamers, veteran baseballer who has two sons playing with Little Chute, is buying suits with two pairs of trousers. Marty never misses a game and he slides around a grandstand seat the same he used to do on the bench.

Lamers was all smiles last Sunday as Little Chute took the Bays into camp, 6 to 2 and one of his 'kids' Jack, caught a splendid game for the Chuters. Catcher Lamers started one double play that drew applause from the crowd.

Kimberly came through with a 3 to 1 victory over Oshkosh at the Sawdust City. It had all the earmarks of a mid-season battle as neither team dented the home plate.

Max Schmelling will not have to return to Germany fightless even if Jim Braddock does stand Max up June 3. ... Rip Valente, Boston promoter, is offering Schmelling \$50,000 to fight Al McCoy and Tom Gallery, the Los Angeles maestro, tops that by \$10,000 for a bout between Max and the Bob Pastor-Bob Nestell winner. ... If Jack Dempsey lands the boxing privileges at Ebbets Field this summer, he'll try to start with a lightweight title tilt between Lou Ambers and Pedro Montanez. ... Broadway gossip has Al 'Well' Ambers' manager, also angling for a lease on the Dodger park.

94 Initiated at Seventh District K. of C. Conclave

Gathering Is Held in St. Mary's Hall at Chilton

Chilton—At a meeting Sunday in St. Mary's hall, the Knights of Columbus of the Seventh district of Wisconsin initiated 94 new members into the order. Calumet Council No. 2556, Chilton, conferred the second degree, the second degree was conferred by the Kaukauna Council, and the third by the Kenosha-Burlington team under the direction of District Deputy Gale of Kenosha. The supreme representative and inspector of the national council, Joseph L. Tushaus of New Haven, Conn., gave a talk, and James F. Cavanaugh, superintendent of schools of Kaukauna and Harold Landgraf of Menasha also spoke before the meeting. Members were taken into the order from Berlin, Oshkosh, Menasha, Neenah, Green Bay, DePere, Kaukauna, Chicago and Chilton. Thirty new members were received into the Calumet Council.

Elmer Pfeiffer, youngest son of Mr. and Mrs. A. J. Pfeiffer of this city, and a student at Marquette university, received the third degree in Calumet council. A. J. Pfeiffer, a charter member of Calumet council, and his seven sons, have the distinction, as far as any records are available, of being the largest Knights of Columbus family in the world, to claim membership in the same council. When Calumet Council was chartered in 1914, five members of the Pfeiffer family, A. J. and his sons, Norman, Cyril, Clarence and Aloysius, Jr., became charter members. Paul Lloyd, Earl and Elmer have joined since.

Back from California
Mr. and Mrs. Roland Schmeiser returned home Saturday evening from a seven month stay in California. They left Sept. 5 with a car and trailer and went to San Diego, where Mr. Schmeiser obtained employment with the Standard Roofing company. Before leaving California Mr. and Mrs. Schmeiser made a 100-mile trip into Mexico. They left San Diego May 2 on their return trip. In the desert in Arizona they found the temperature as high as 105 in the shade. They were six and one half days on their return trip.

Miss Elizabeth Haerig, housekeeper for her nephew, the Rev. Joseph Schaefer at Custer, arranged a surprise for him by having his brothers and sisters and their families gather at his home Sunday to celebrate the tenth anniversary of his ordination to the priesthood. The guests were entertained at dinner and supper, and in the afternoon a short program was given by the nieces and nephews of Father Schaefer. Those who were present at the celebration were Mr. and Mrs. William B. Schaefer and daughters Dorothy and Charlotte; Mr. and Mrs. Arno Schaefer and son Arno and daughter Audrey; Mr. and Mrs. Joseph Reinke and granddaughters Connie and Virginia; all of Chilton; the Misses Margaret and Marie Schaefer, Werner Schaefer and Mrs. Christine Schmitt.

Arraign Cashier Of Chilton Bank On Three Counts

Dawson Waives Preliminary Examination; Released on \$10,000 Bond

George E. Dawson, 54, former cashier of the Farmers and Merchants State bank of Brillion, was free under \$10,000 bond today following his arraignment on three counts in the justice court of John P. Hume at Chilton last night.

Dawson, who is recovering from a bullet wound he inflicted himself April 20, waived preliminary examination on charges of embezzlement, of making false entries in daily financial statements, to depositor banks and of making false entries in bank records with intent to defraud. He was bound over to the October term of circuit court at Chilton.

Directors of the bank accepted Dawson's resignation as cashier April 19, and on the following morning, Dawson shot himself through the chest with a pistol. The bullet penetrated his body but failed to inflict a fatal injury.

Action against Dawson was ordered by the state banking commission following a report by an examiner for the Federal Deposit Insurance corporation and a subsequent conference with directors of the bank.

Father Adelbert to Enter Missionary Work

The Rev. Father Adelbert, assistant master at Monte Alverno retreat house since last fall, left today for New York where he will remain for a few weeks before sailing for India to enter the missionary service. Father Adelbert, a member of the Capuchin order, came here from New York, and has had considerable missionary experience.

The Rev. Gilbert Heule, who was in charge of the retreat house from its opening until last fall, is expected to arrive here Friday to spend a few weeks at Monte Alverno.

NAMED PTA HEAD

Herbert L. Davis, above, yesterday was elected president of the Edison Grade School Parent Teacher association to succeed Homer L. Gebhardt. Mr. Davis is a research associate at the Institute of Paper Chemistry. About 300 parents attended the meeting yesterday and were entertained with a program by grade school pupils.

Union Boycott Is Aim in Walkout

Movie Craftsmen Ask Support of Two Strong Waterfront Unions

Hollywood, Calif. — Striking movie craftsmen recruited support today from two powerful waterfront unions in a boycott of other unions whose members pass through studio picket lines.

The Federated Motion Picture Crafts asked the Maritime Federation of the Pacific and the International Longshoremen's association for help in the crafts' fight for union recognition and a closed shop.

If the maritime unions comply, they will refuse to load location-bound ships with film company equipment and personnel. J. R. Robinson, in command of the P. M. P. C. picket lines, reported striking pickets had spurned a proposal by "outside influences" to participate in an arson plot against the Metro-Goldwyn-Mayer studio. He said "several strangers" approached pickets with the suggestion that M-G-M lumber be drenched with gasoline and ignited.

"Unfortunately, the pickets let the strangers get away," Robinson said. He also reported a striker's automobile was fired upon by gunmen who escaped. The striker, Ernest C. Hoffman, was not injured.

Police later arrested three laborers at 20th Century-Fox studios and jailed them on suspicion of assault with a deadly weapon. They were Raymond Keith, 20, Harold E. Herr, 19, and William Fitzgerald, 21.

Outagamie Board Is Opposed to Measure

(Post-Crescent Madison Bureau) Madison—The Outagamie county board is opposed to the Budlong bill which would establish an 8-hour day in county institutions, according to resolutions received by members of the legislature. Communications from the board have been received by Assemblyman Mark Catlin of Appleton and William Rohan of Kaukauna, and Senator Mike Mack of Shiocton who is chairman of the county board.

The bill has already passed the senate and is now awaiting a hearing by assembly committee.

City Home Interior to Be Painted, Varnished

Repair work at the city home is expected to be started soon. The work, ordered done by the common council upon the recommendation of the relief committee includes painting of the walls and woodwork in the men's recreation room, six bed rooms, one of the halls and stairways and floors in two rooms occupied by women. The floor of the general dining room and the main stairway leading to the second floor will be varnished. Fire proof roofing will be put on both the city home and isolation hospital.

Announce Program for Annual N. T. A Meeting

The preliminary program for the thirty-third annual meeting of the National Tuberculosis association to be held at Milwaukee May 31 to June 3 has been completed, according to a notice received by Mrs. Josephine Versteegen, city nurse. Mrs. Versteegen may attend the meeting. Dr. Esmond R. Long, Philadelphia, Pa., president, will give the address opening the general meeting after which reports will be heard. Pathological, clinical, social work and administrative section meetings will be held. A joint symposium will be held on Thursday. The American Sanatorium association will hold its meeting on Monday.

Herbert L. Davis, research associate at the Institute of Paper Chemistry, was elected president of the Edison Grade School Parent Teacher association yesterday to succeed Homer L. Gebhardt, general secretary at the Y. M. C. A.

Other officers named were Mrs. Harold Heller, vice president; Miss Meta A. Froehlich, secretary; Mrs. Harvey Younger, treasurer. Retiring officers are Mrs. Milton Towner, vice president; Miss Genevieve Thullen, secretary; Mrs. Herbert L. Davis, treasurer.

Parents of pupils in Miss Elsie Ackerman's fourth grade class received a prize for having the highest average number of parents present at PTA meetings throughout the school year. Reports on the Clara Tree Major plays sponsored by the association this year were given by Mrs. E. F. Mielke and Mrs. Milton Towner.

About 300 parents attended the meeting yesterday and were entertained with a "melting pot" program by school children. The morning kindergarten band opened the program with five selections after which fifth grade pupils in Miss Agnes Jolin's class sang two Spanish songs.

An illustrated song about Germany was then presented by Miss Bert Jeanne Hieseb's second graders after which Japanese drills were staged by first grade pupils. Miss Genevieve Thullen's second grade children sang an Indian song and staged a dance and Miss Florence W. Hougum's fifth graders sang Norwegian and Grecian songs. Third and fourth graders presented songs of the Slavic countries after which American songs were sung by sixth graders.

25 Persons Arrested in Raid on Gambling House

Milwaukee — (U-P) Police arrested 24 men and a woman yesterday after they broke down three doors to gain entrance to a Milwaukee "bridge club," raided several times in past months. Police held two as keepers of a gambling house and released the others on \$30 bail.

Jaces Plan Medal Awards For Outstanding Heroes

Public recognition of deeds of heroism in Outagamie county is planned under a new project to be sponsored by the Appleton Junior Chamber of Commerce. The new project provides for awarding of medals for deeds since April 1 in which a life was saved. The award will be made at a testimonial banquet when the hero will be the guest of the junior chamber of commerce.

National honors have been bestowed on heroes for many years but because it is difficult to obtain such a reward for any act of valor in the county, the Jaces have organized a committee which will investigate cases in which lives were saved through heroism.

Awards will be made throughout the year as the committee decides. At present, one heroic deed is being investigated and in order to include this probable hero among those to be honored, the committee set April 1 as the date for start of the new drive.

Boughton is Chairman
Fred Boughton has been named chairman of the committee with Dr. Richard Joyce as the other member. George T. Prim, chief of

police, has given his endorsement to the movement and will assist the committee in investigating cases.

Before any awards are made, the hero and the rescued person will be contacted and written statements concerning the deed obtained from each. Witnesses, if any, will be asked to give opinions concerning the rescue.

Minor details of the local campaign will be completed soon and efforts then will be made to have other junior chamber of commerce organizations in the state adopt a similar program.

Plan Statewide Movement
If the heroic deed award becomes a statewide Jace movement, Appleton will be the headquarters and a local committee at the end of each year would receive reports from other clubs as to awards which they made.

Governor Philip F. LaFollette has been asked to appoint a committee which each year would examine junior chamber of commerce reports concerning heroic deeds and name a "hero of the year." Governor LaFollette also has been asked to make the gold medal award to the state's greatest hero.

RADIO AND WIRE PHOTOS SHOW CORONATION CROWDS

A curb stone is as good a place as any to eat or, as a matter of fact, to sleep when there's a coronation parade in prospect. This picture, radioed from London to New York, shows loyal British women subjects enjoying supper last night while facing the prospect of sitting all night in the open so as to be on hand to cheer their king and queen, George VI and Elizabeth, in the coronation parade. Uncounted thousands slept all night in the open to keep their points of vantage along the line of march.

Legion Auxiliary Will Hold Poppy Day Sale May 29

Proceeds Will Be Used to Aid Families of War Dead and Disabled

Poppy day will be observed in Appleton by the auxiliary to the Oney Johnston post, American Legion, on Saturday, May 29, it has been announced by Mrs. Louis Micklen, general chairman.

The little crepe paper flowers are made by disabled veterans in hospitals, and 4,000 large poppies have been ordered by the auxiliary to be displayed in windows by merchants and 7,000 small poppies which will be worn by citizens as a personal tribute to soldiers.

Proceeds of the poppy sale will be used to aid disabled veterans and the needy families of those killed and maimed in the war.

No set price will be asked for the poppy, but every person will be asked to wear one and to contribute to the fund. The bulk of the money will be expended in Appleton for welfare work of the local unit.

The memorial poppies are made to represent the wild poppies of France and Belgium which grew in such profusion on the World war battle fields.

It was Colonel John McRae of the Canadian forces who immortalized the poppy by his poem, "In Flanders Fields." He was killed in action a few days after it was written.

"Honor the war dead and aid the war's living victims," will be the auxiliary's Poppy day appeal.

Realty Transfers

The following real estate transfers were filed today at the office of A. L. Collar, Outagamie county register of deeds:

Frank E. Wright to William M. Wright, a lot in the third ward, Appleton.

John H. Hielpas to John Huiting, a parcel of land in the village of Little Chute.

Joseph V. Tease to Harold Versteegen, a lot in the village of Little Chute.

Robert Squires to Fred Hein, a parcel of land in the village of Little Chute.

John C. Vandenberg to Lena Vandenberg, a parcel of land in the town of Kaukauna.

Edwin R. Jahinke to Robert W. Scheib, a parcel of land in the town of Freedom.

Bids Opened for Aerial Mapping Of Badger Farms

Washington — (U-P) Bids were opened today for the aerial mapping of 10,557 square miles of Wisconsin farm land. The work is part of the agricultural adjustment administration's 1937 program for making aerial surveys of 350,000 square miles of land.

The square miles to be mapped and the counties in which the work will be done are: Columbia, 778; Dane, 1,202; Fond du Lac, 728; Jefferson, 593; Iowa, 781; Kenosha, 282; Milwaukee, 235; Ozaucue, 233; Racine, 324; Richland, 590; Rock, 716; Sauk, 842; Sheboygan, 521; Walworth, 560; Washington, 431; Waukesha, 549.

The work is part of the AAA soil conservation program to facilitate the measuring of farm land and to make possible a more permanent record of each farm at less cost.

This aerial work first was undertaken in a few counties in 1934. Aerial photographs of lands enable experienced checkers to determine the area of crop planted in each field without the necessity of re-measuring the field each year.

Leaves for Meeting of College Business Heads

Ralph J. Watts, business manager of Lawrence college, will leave the city today to attend the twenty-seventh annual meeting of the Association of University and College Business Officers at the University of Chicago on Thursday and Friday. He is secretary-treasurer of the national organization. The association will hold sessions throughout both days, concluding with a dinner at International House.

Show Movies of National Parks at Rotary Meeting

Colored movies of national parks in the west were shown last night at the Rotary club "ladies night" party at Hotel Northern. The movies were furnished by the Ladies commission which is sponsoring a campaign to increase interest in national parks. Albert Wickesberg, Appleton High school student, played three flute solos.

Clean-Up Drive Proves Aid for Milk Dealers

That thousands of milk bottles will be returned to milk dealers as a result of the clean-up campaign last week was indicated by reports at a meeting of the board of managers of the Appleton Milk Bottle Exchange last night. In addition to the reports on the bottle campaign, the board transacted a considerable amount of routine business.

Women's Clubs of Sixth District Pick West Bend

Elkridge, Wis. — (U-P) Mrs. Lynde White, Wisconsin Federation of Women's club president for the Sixth district, announced today selection of West Bend for the district convention May 13. Delegates from clubs in Calumet, Fond du Lac, Sheboygan, Washington, Winnebago and Ozaucue counties will participate.

Barrows to Receive Degree From Ripon

Ripon — (U-P) An honorary doctor of laws degree will be conferred tomorrow by Ripon college on Thomas N. Barrows, president of Lawrence college.

The degree will be presented by Frank J. Harwood of Appleton, chairman of the Ripon college trustee committee on honorary degrees in a special chapel service.

Observe College Freshman Guest Day on Saturday

Freshman Guest day at Lawrence college will be observed Saturday with a special program of entertainment and talks. Stanley Avery, Park Ridge, Ill., freshmen class president, is in charge of the program.

Preceding the day's festivities will be an inter-fraternity-sorority song-fest at the Alexander gymnasium at 7:30 Friday evening.

Thomas N. Barrows, college president, will speak on the chapel program at 10 o'clock Saturday morning. Avery and Fred Leech also will give talks.

A May breakfast arranged by the Lawrence Women's association will be held on Ormsby terrace at 8 o'clock in the morning.

A freshman track meet with Ripon will take place at 2 o'clock in the afternoon. It will be followed by a tea dance from 3 to 5:30 at Alexander gymnasium. A buffet supper will be held at the little gym at 6 o'clock.

Miss Mary White, Appleton, will be in charge of the dinner at noon at Ormsby hall. Miss Marian Humlek, Fond du Lac, will act as toastmistress at the dinner. Kenneth Walker, Milwaukee, will be toastmaster at the dinner at Brook hall.

A 1-act play will be presented at 7:30 in the evening at Lawrence Memorial chapel and it will be followed by singing by the Lawrence A Cappella choir.

He said the chains would have the alternatives of leaving the state, raising prices, or reducing payments to producers. He offered a tabulation listing purchases in Wisconsin of the stores he represented as \$46,870,000 last year, including \$34,500,000 of dairy products. Total sales of their 560 outlets in Wisconsin, he said, were \$30,000,000.

Frank Bachhuber, Wausau, appearing for the Wisconsin Dairyman's Protective Association, said 70 cheese factories near Wausau produce annually from chain stores, and a steady stream of dairymen and canners joined him in opposing the bills.

H. M. Clark of Manitowish, representing the White House Milk Co., and A. and P. subsidiary, said his company spent \$6,000,000 in milk in the state last year and added that withdrawal of this business was possible if a large tax were enacted.

He emphasized his statement was "not a threat" and that he could not speak for the company.

Not Discriminatory
In rebuttal, E. J. Malloy of Wisconsin Markets, Inc., declared the bills would not be discriminatory and that they would merely equalize the tax burden.

He said the chains admittedly form an important market for the dairymen, but that the independent merchants also provide a large market.

"I have listened with interest to this well-organized group of customers that the monopolies have brought down to tell their stories," he said, adding that independents could marshal an even larger delegation had they wished to do so.

Discussing the asserted possibility of chains leaving the state, Malloy said, "that's a lot of what they haven't moved out of other states which placed taxes on chains. Texas taxes them as much as \$750 but they haven't moved out."

Groschmidt said his bill was not designed primarily to raise revenues but to put a restriction on the further growth and extension of the monopolies of chains.

2 Milwaukee County Fund Bills Approved

Madison — (U-P) Two benefit fund bills affecting only Milwaukee county received final legislative approval in the senate today. The senate concurred in the Perry bill requiring villages of 5,000 or more inhabitants (Shorewood and Whitefish Bay) to establish police and firemen pension funds, and in the Groschmidt bill directing Milwaukee county to set up an annuity and benefit fund for sheriffs and their widows and children.

It Is Said--

That two or three sturgeon apparently unable to get where they want to go, where ever that is, have been putting on a show in the Fox river near the south end of the Oneida street bridge for the last two days. Groups of spectators have gathered frequently on the bridge to watch the big fish break water. Some observers claim the sturgeon were swept downstream and through the dam by the swift current and now can't make the grade upstream. Another remark this morning was that the fish were lucky that they didn't get spears thrown into them last night.

Dairymen Oppose 2 Chain Store Tax Bills at Hearing

Fear Store Operators Will Buy Products in Other States

Madison — (U-P) Dairymen formed the bulk of opposition to two chain store tax bills at a hearing before the assembly taxation committee yesterday.

Representatives of cooperatives as well as individual milk, butter and cheese producers told the committee that if high taxes forced the chains out of Wisconsin, the chain operators probably would retaliate by buying dairy products in other states, thus costing the state a valuable market.

The dairymen also proposed amendments to exempt condensaries from the taxes, along with lumber, fuel, ice and second-hand automobile dealers.

Two proposals to replace the expiring tax, which varies from \$25 to \$250 according to number of sales outlets, were heard jointly by the committee. One, by Assemblyman John Groschmidt, (P), Milwaukee, would grade the tax from \$5 for outlets up to five in number, to \$1,000 each for more than 100. The other measure, by Assemblyman A. J. Balzer, (D), Milwaukee, would fix rates from \$30 to \$300 in percent on gross sales.

Boost In Prices
Sponsors of the bills withheld argument until the opponents had presented their case.

George Spohn, Milwaukee, representing the Kroger, National Tea, Atlantic and Pacific and Gable-Skogmo stores and the Frank Schilling company of Green Bay, assailed the tax as "punitive in nature, discriminatory and not intended as a revenue measure."

He said the chains would have the alternatives of leaving the state, raising prices, or reducing payments to producers. He offered a tabulation listing purchases in Wisconsin of the stores he represented as \$46,870,000 last year, including \$34,500,000 of dairy products. Total sales of their 560 outlets in Wisconsin, he said, were \$30,000,000.

Today and Tomorrow

BY WALTER LIPPMAN

The Coronation of George VI

George VI is the first King who is being crowned in the presence of the candid camera and the even more candid reporter. Though there were newsmen when his father was crowned, in those simpler days it was still the custom for the observers to see only what the audience is supposed to see across the projecting glamour of the footlights. But at this coronation the reporters have been all over the theater, letting out those little details of the preparations and the rehearsals which make it clear to the audience that when the angels fly they are suspended by strong but invisible wires.

A half century or more ago, Bagehot, who was a great commentator on the English Constitution, remarked, if I remember correctly, that the one thing that would be fatal to the institution of monarchy was to rummage around too much in its unseen and prosaic circumstances. His feeling was, of course, that the essence of kingship was its magic and that royalty depended upon an illusion—a useful and splendid illusion perhaps, but an optical illusion, by which an ordinary man was invested with extraordinary quality.

Expressed Doubt As to Monarchy Surviving Publicity

Being in the know, Bagehot no doubt realized that the admirable but homely private life of Victoria and Albert would, if exposed to the public view, seem strangely inadequate to the popular image of a Queen. And since he was writing at a time when the masses of the people were just learning to read newspapers, and were becoming increasingly worldly and matter-of-fact, he expressed a doubt as to whether monarchy could survive the kind of publicity which has in fact befallen upon the House of Windsor in the past twelve months.

But discerning as he was, Bagehot seems to have missed the significance of the change that time has wrought in the mystery that is being celebrated in Westminster Abbey. The regalia with which Edward VIII's younger brother is being invested are the ancient instruments of power by which kings extended their dominion over scattered and warring tribes and reduced them to the peace of a common allegiance. For that work the king needed not only material power but the magic which seduces consent. But now it is no longer the king who rules and binds together his subjects. It is the British people who crown a king in order to celebrate the actuality of their self-government and the mystery of their unity.

That's Why Candid Cameras Do Not Spoil the Show

For that reason the candid cameras and the candid reporters do not spoil the show. Every one knows it is a show, and there is no secret which calls for secretiveness. The British are elevating a very human being high above them for a moment, as a republic might raise its flag, knowing full well that it is made of cotton and colored dyes. There is no need of the ancient magic of kings because now the energy of union runs through the discordant tribes, and they are bound together not by the king's majesty but by the necessities of their own lives.

So much is the king the symbol of this unity, so little is he the power that compels it, that if there were no king at all, it would be crowned, some other symbol would disclose itself to express the same reality. And what is that reality? It is that London is one of the half dozen principal centers of a society which contains within itself many

er and its peace made real. This society has come into being within the last century and a half and is destined in the end to unite all the nations within itself. So intricate are its connections that the whole conception of alliances and leagues belongs to an earlier age and to the passing necessities of military defense against peoples in rebellion against the common assumptions of civilized society. We here are members of that society. Because of that we fail to imagine the reality, we are unable to anticipate our own feelings, when we tell ourselves that we could be indifferent to the fate of the peoples who live loyally within this society to which we belong.

No One Should Deceive Himself as to Meaning

We make our laws. We frame our policies. We do what we do in all good faith. But no one should deceive himself as to what they mean. Let a mortal blow be aimed at London or at Paris, and it will reverberate throughout this land. For we know that in the final test, when every small thing has been pushed aside, London and Paris are vital centers of the same great society which we have extended across this continent.

What the British and French do in this or that practical issue is their business and what we do is ours. Within this great unity there must be the freedom of great diversity. But we merely deceive ourselves if we imagine that we do not care deeply about their fate, or hope with all our hearts that neither they nor we will ever lack the strength to defend, wherever they may be challenged, the common things of our common heritage.

RIGID INSPECTION

An Outagamie Feature

On the Outagamie farms, nobody knows just when the inspector is going to appear. For that matter, neither do we in the plant have any warning as to when he is coming to check up on us. It's his job, as representative of the Chicago Milk Shed, to see that every modern improvement for sanitary control is in effect, that the carefully picked herds are kept in tip-top condition, that milking methods and conditions are JUST RIGHT. And he's plenty strict! That's one big reason why Outagamie A milk is the milk of finer flavor.

Librarian Will Tell of Origin Of Mothers Day

Woman's Club Members to Discuss Plans for District Meeting

Kaukauna—A talk on the origin of Mothers day will be given by Miss Bernice Happer, librarian, at the mothers and daughter's banquet to be held by the Kaukauna Woman's club tomorrow night at 6:30 in Hotel Kaukauna. A musical program will be presented.

Tomorrow night's banquet has been arranged by the music committee of the club of which Mrs. Le Roy Seifert is chairman. Other members are Mrs. Ed Sager, Mrs. Myron Black, Mrs. Carl Runte, Mrs. Anton Bergers, Mrs. E. Farwell, Mrs. Henry Adams and Mrs. L. Gurnee.

At a business meeting following the banquet, members of the club will outline further plans for the eighth district convention of women's clubs which will be held in Kaukauna next Wednesday and Thursday, May 19 and 20.

To Hear G-Man
Featured speaker for that event will be L. B. Nickols, a member of J. Edgar Hoover's special bureau of investigation at Washington. D. C. Nickols will talk on "Combating Crime" at an open meeting in the Civic auditorium Wednesday evening.

Born in Decatur, Illinois, Nickols took undergraduate work at the University of Michigan and later was graduated from the law school at George Washington university. He was appointed special agent in the bureau in July of 1934, worked as a field investigator, and in November of 1935 was named as one of Hoover's special assistants.

At Wednesday night's public gathering in the auditorium, highlight of the 2-day convention, a chorus of 100 women from clubs in the eighth district will sing. Directed by Mrs. R. F. Gronzo and accompanied by Mrs. Le Baron Austin, both of Green Bay, the chorus will hold three practice sessions before their appearance. The Kaukauna High school band under the direction of Clarence Kriesa will play.

Headquarters for the convale will be in the Brook Memorial Methodist Episcopal church. Mrs. John Cleland, president of the Kaukauna club, will assist Mrs. George Krahn, eighth district president of Oconto Falls and Mrs. Adam Steele of Manitowoc in supervising arrangements for the convention. Mrs. J. B. Delbridge will act as assistant chairman of the Kaukauna delegation.

Programs for the convention are being printed and will be released next Monday, Mrs. Cleland reported yesterday.

Social Items

Kaukauna—Benevolent Protective Order of Elks, No. 952, will have a dance for members, their wives and lady friends Saturday night in the clubrooms on Second street. The committee in charge of arrangements is made up of Fay Posson, chairman, Leo Schmalz, and N. F. Gerend.

Delegates to attend the state federation meeting in Appleton next month were elected at a recent meeting of the Aid Association for Lutherans, Local No. 18.

They are as follows: Walter Denzer, chairman, Martin F. Hoffmann, Mrs. Arthur Freier, and Mrs. Louis Rogers. Alternates are Mrs. Otto Becker, Martha Buelow, Otto Becker and Howard J. Zuelzke.

A public card party will be given in the St. Mary's church auditorium at 8 o'clock tomorrow night. The party is sponsored by the men of the parish.

The Knights of Columbus Ladies will meet tomorrow afternoon in the clubrooms on Wisconsin avenue. Hostesses are as follows: Mrs. J. W. Weyenberg, chairman, Mrs. A. E. Bachhuber, Mrs. Nick Esler, Mrs. F. McCormick, Miss Winifred Ryan, and Mrs. S. Esler.

Kaukauna Girl Wins 'W' at University

(Post-Crescent Madison Bureau) Madison—Evelyn Miller, Kaukauna, is among the 33 students at the University of Wisconsin who will receive parchment "forensic" "W's" for outstanding performance in debating, oratory, and extemporaneous speaking, the department of speech has announced.

Miss Miller will receive the award at the annual Forensic Banquet in the Memorial Union May 20. Other students from the Appleton area to win citations were Auentin R. Barnes, M. Helen Scott, and James Doyle, senior class president, all of Oshkosh.

Utility Collection Department Will Move

Kaukauna—The city electrical and water department collection offices will be moved into the space in the municipal building formerly used for the post office within three weeks. H. F. Weckwerth, manager, said yesterday.

New light fixtures are being installed and the walls redecorated in the large room at the northern end of the building left vacant when the post office was moved into the new brick structure. The additional space will relieve crowded conditions in the offices, Weckwerth said, and will also be used for display purposes.

The Kaukauna office of the Appleton Post-Crescent is located in the Jules Mertes barbershop on Wisconsin avenue. Don Anderson is the correspondent in charge and the telephone number is 107. Subscribers may call this number until 6:30 in the evening if their papers were not delivered.

With This Regalia a King and Queen are Crowned

KING'S STATE CROWN
This is the crown that the thousands watching the coronation procession saw on the head of the king. He wears it on all state occasions.

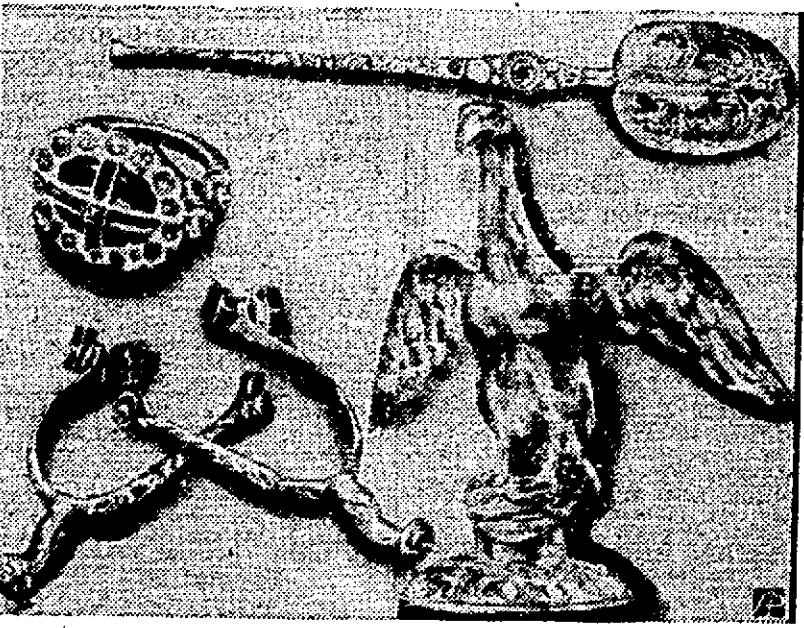

QUEEN'S STATE CROWN
With this she was crowned by the Archbishop. Except when the queen is the reigning monarch it is the only crown she ever wears.

SCEPTER, ORB, SWORD
The scepter indicates imperial power; the orb symbolizes world rule under the Cross; the sword signifies his majesty's willingness to defend the church.

ST. EDWARD'S CROWN
Known as the crown of England it was inherited from Edward the Confessor, who died in 1066. Edward's crown was used by every king of England at his coronation until it was destroyed in Cromwell's time. The present crown is a duplicate, made for Charles II in 1611.

RING, SPURS, AMPULLA
St. George's spurs are strapped to the king's boots as symbols of knighthood and chivalry. The coronation ring, his majesty's personal property, is used to wed the monarch and the church. The ampulla and the spoon, only pieces of regalia not destroyed by Cromwell's Roundheads, holds oil and balsam for anointing the king.

Shipment of Poppies Is Received for Sale

Kaukauna—The poppies which will be sold about the city by the American Legion auxiliary on Saturday, May 29, have been received from the veterans' home in Milwaukee. Mrs. Walter Specht, auxiliary president, reported today.

The flowers are crepe paper replicas of the poppies of France and will be distributed by corps of girls in the annual one-day drive for funds for disabled veterans and their families. Veterans in the

Holy Name Societies Will Be Represented at Rally

Kaukauna—Almost 200 members of the St. Mary's and Holy Cross Holy Name societies will attend the rally of the Green Bay diocesan union of the societies which is expected to bring over 9,000 visitors into Neenah-Menasha Sunday.

The rally will open at 10 o'clock in the morning with a field mass celebrated by the Rev. Paul P. Rhode, bishop of the Green Bay diocese and honorary president. Dinner will be served at noon by the St. John's congregation, and at 2 o'clock in the afternoon the societies will assemble for the parade, the rally's outstanding feature.

The two societies from Kaukauna will march as a unit and will be headed by the high school band. Nearly 200 members of the societies and men of the parishes have promised to take part in the marching. The delegation from this city will meet at the high school at 12:30 Sunday afternoon. Information about the rally can be obtained from Joseph C. McCarty, chairman, Al Hartzheim, secretary, and Al Schmidt.

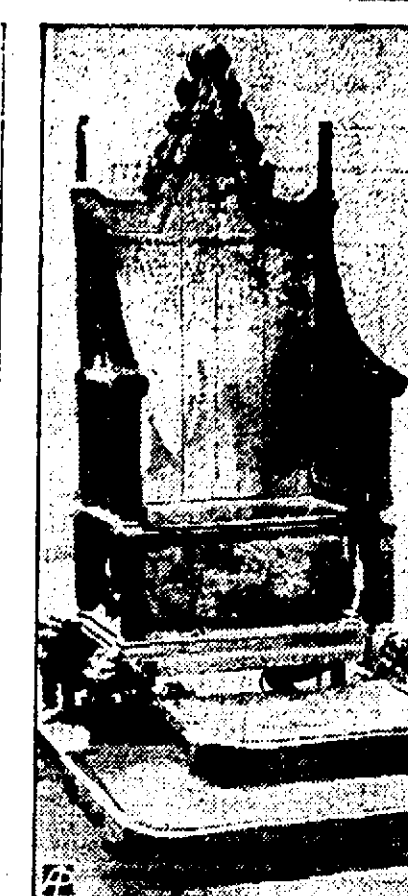

Milwaukee institution made the flowers.

TO PRESENT PLAY
Kaukauna—The final performance of "Make Yourself at Home," a 3-act comedy, was presented in the Lutheran school auditorium last night by members of the Trinity Lutheran Young People's society. The play was presented first at a matinee Sunday afternoon.

KING-MAKER AND KING'S SEAT

Since the twelfth century it has been the office of archbishops of Canterbury to anoint the kings of England. The Most Rev. Cosmo Gordon Lang (above), now the archbishop, will crown George VI.

This chair has been used for English coronations since. Beneath its seat is the "Stone of Scone" which tradition says was the original Jacob's pillow.

New York—(P)—Rally power faded from the stock market today after selected issues, led by the rails, had pushed up fractions to 2 points.

While an assortment of favorites held sizable portions of their advances to the finish, moderate losses in the final hour were well distributed throughout list with an assortment of new lows for the year in evidence.

It was one of the most apathetic sessions of the last 12 months, transfers amounting to only about 600,000 shares.

Steels followed the rails for a time, as did several rubbers, oils and specialties. Most gave ground in the concluding period.

Big Trailer Needed if You Intend to Live in It for Any Great Length of Time

BY CARL W. MASON

Butte, Mont.—Don't buy too small a house trailer if you intend living in such a vehicle for any length of time. A small trailer may seem delightfully snug and cozy at the outset, and the marvelous utilization of every cubic inch of space effected by the manufacturer may carry the novice off his feet when he is buying. Only months of travel on the road and living in the "cracker box" can teach the trailerite his ultimate needs unless he is willing to take the advice of veterans at the start and be guided by such counsel in purchasing and equipping.

My trailer is a 14-footer equipped with a full-length wardrobe, two half-room-height storage spaces beside it, two large chests under dinette seats, a long cupboard across the width of the trailer above the table, a utensil cupboard under the cook stove, two cupboards above the sink, a refrigerator, deep cupboard, shallow cupboard, four large drawers and a cutlery drawer beneath the sink and cooking table besides some clear floor space suitable for setting articles. Yet, with only two of us, after more than six months continuous living in the home on wheels I find I could use some more space—concealed space—in fact need it badly. And my trailer is far from being the smallest vehicle of the kind.

Full Storage Space. The winter with its constant need of heating fires demonstrated the pressing necessity for fuel storage space. Some trailers are made with a small compartment for fuel but many others are not provided. I used an old market basket which stood all winter on the floor in front of the heater, seriously detracting from the esthetic ensemble of the interior and provoking wild words at times as a result of stubbed toes and shins barked in the sleepy gloom of midnight. The basket was convenient for bringing in the small sticks of wood demanded by the heater but the misery of it was not realized until we recently threw it out on the advent of settled warm weather. And oh the dirt that was forever falling from that basket. Wood heaters in trailers are messy things anyway. Happy that trailerite who operates an oil burner. I noted one trailer owner who had installed a regular oil burner—not kerosene or "coal oil" as the folks say down here. It burned in the regular stove and was fed by a tank installed in a covered compartment in the wall behind it, using heavy oil. No wood dirt, no ashes, no soot sitting down from the chimney, no daily hunting and chopping of wood. Yes, the oil heater is a delightful gadget altho the wood burner is cheerful and the most economical, yet and perhaps the most healthful. But it seems eternally in need of polishing and rusts quickly, at least in a humid climate such as this along the Gulf coast or in fact anywhere near water.

Another Need. Another dire need in the trailer home is a place for soiled clothing and other fabrics. I tried keeping such in one of the front cupboards or lockers beside the wardrobe but found they quickly collected dampness and became moldy, endangering everything else near them and even menacing the wooden interior of the trailer itself. This matter of dampness in the various lockers

and cupboards of the trailer is something of a nightmare generally. In the closed shelves at the upper ends of the room I discovered hats, cameras, ornaments etc. after a few weeks became damp and covered thickly with greenish mildew, even articles wrapped in papers. In the back of the wardrobe which was opened daily, dresses and suits became mildewed, some of this accumulation brushing off easily, in other cases necessitating a trip to the cleaners.

Moisture creeps up into the trailer or from below, there being a few openings in the floor for wires, bolts etc. Heavy layers of newspapers placed on the bottom of chests etc. built on the floor became very damp. I obviate this difficulty to a great extent by laying down old oil cloth instead of newspapers.

Need Corners. Returning again to the problem of soiled clothing, I find one can buy small wicker hampers suitable for standing in a corner of the trailer room and these are slightly handy but the problem is to find enough corners. Under the table at the back is a convenient place for storing a pail, sundry bags of fruit and vegetables etc. A clothes hamper might be placed there but it must either be low enough to permit a bed being laid across it at night or else must be taken out and returned each morning. Frequent washings are the best solution, of course, but these many launderings require more Christian fortitude and saintly perseverance than the average male traveler at least can muster, of which I am a living witness. And one dislikes running to the laundry every other day with a handful of wash.

Vegetables and fruit also collect or diffuse dampness when stored in the cupboards of a trailer unless

one is very careful and shifts and airs them frequently.

Garbage Disposal

Garbage disposal has found rather a simple matter. A straight-sided, covered, enamelware preserving kettle that had proven unpopular in the kitchen at home and was bright and clean solved the problem of kitchen waste in the trailer. An unobtrusive corner close to the cook stove accommodates the receptacle and it is easy to keep it clean and entirely inoffensive. A couple of emptyings a day are usually sufficient and the pail is not an eyesore to the place.

Raising the front of the trailer, when parked, so that water in the sink will run easily toward the drain will save considerable work and eliminate disagreeable conditions about the sink.

Some trailers have very small water tanks and such usually require either frequent fillings of a water pail as a regular and bothersome feature of the furnishing. My trailer tank holds 20 gallons. Once a week I fill it to the brim and the water problem is thus disposed of with a minimum of annoyance and very little labor.

August Regner Funeral Held at Stephensville

Stephensville — Funeral services for August Regner, 89, who died at his home here Thursday morning after a short illness, were conducted at St. Paul's Lutheran church at 10 o'clock Monday morning by the Rev. Emil Redlin. Bearers were Ben Voight, Conrad Schwab, Ben Parhiel, Fred Schintz, Otto Yordi and Albert Schultz. Burial was made in Marshfield. Survivors are the widow and two sons, Guston Koddatz, Marshfield; Albert Koddatz, Ellington; two daughters, Mrs. Earl Winslow, Wilmington, Del. and Mrs. Paul Bell, Marshfield, and two sisters in Germany.

OCTOGENARIAN KEEPS BUSY. Clarendon, Tex.—(A)—Miss Elizabeth Anne Bobo didn't even think of retiring when she was 70. Now 81, she keeps an 11-room house, spades and plants her garden, and in winter often climbs a 20-foot ladder to get water from a windmill tank.

Auxiliary Gives Program in Honor Of Mother's Day

Black Creek — A program in honor of Mother's day was given Monday evening at the meeting of the American Legion auxiliary. Mothers were guests and there were 24 members and 24 guests.

The following program was presented after the regular meeting: Song, "Long, Long Ago," by audience; reading, "My Mother," Mrs. R. A. Anusson; two vocal duets, "Little Old Lady" and "Silver Threads Among the Gold" were sung by Mrs. R. D. Bishop and Mrs. A. P. Pruetter; a skit, "The Cheerful Caller," Mrs. Henry Kuhn and Mrs. E. P. Strassburger; two ac-cordian solos, Leslie Barth. Games followed and prizes were given and a lunch was served by the auxiliary.

The poppy posters were judged Monday afternoon by Mrs. R. H. Gehrk, Mrs. R. J. Tesch and Mrs. D. W. Burdick. Prizes for the fifth and sixth grade pupils were taken by June and Joyce Rohloff, first and second respectively. Among the seventh, eighth and ninth grade pupils, the prizes were taken by Leslie Barth.

and Robert Kaphingst, first and second, respectively.

The posters that took first places will be sent to the auxiliary headquarters at Milwaukee. The remaining posters will be displayed in the local stores. Poppy day will be observed May 29.

Mr. and Mrs. Leonard Schwister, Mrs. Kathryn McHugh, Mr. and Mrs. Alvin Schroeder and Arthur Schwister were among the dinner guests Sunday of Mr. and Mrs. Harvey Schroeder.

An index of all California mines, with their histories where available, is being made with the aid of a federal relief grant.

'GH-MEN' RALLY Scottsbluff, Neb. —(A)—It's "GH-Men" out here instead of "G-Men" and the foes are grasshoppers instead of gangsters. County Agent C. W. Nibler announced he was organizing a patrol of "GH-Men" to poison grasshoppers in the county soon after the spring hatch.

ARE YOU WEAK?

WOMEN who suffer every month — who may have sideache or headache associated with functional disturbances, and those about to become mothers, will find Dr. Pierce's Favorite Prescription a dependable tonic. It stimulates the appetite and increases the intake of food. Read what Mrs. Jaymie Norton of 620 E. Grand Ave., Peasaut, Ill., says: "Dr. Pierce's Favorite Prescription is excellent to relieve a weak, tired-out feeling, also headaches associated with functional disturbances. It is a splendid tonic to increase the appetite of the expectant mother, too. It has proved excellent for me at such times. Buy of your druggist now! New size, 50¢ each. Large size, 90¢ each. Found at all druggists. Dr. Pierce's Chem. Co., Buffalo, N. Y."
